Local Man Killed In Pick-Up Crash

A Route 3, Circleville, man was killed when his pick-up truck crashed into a tree late Friday night, and six other people were injured in other accidents on Pickaway County roads.

Ronald L. Gillespie, 35, Route 3, died of massive internal injuries in the 10:30 p.m. Friday accident on Five Points Pike. He was pronounced dead at the scene by Pickaway County Coroner Dr. Ray Carroll.

7
Dead In
1977

Pickaway County Deputy Sheriff Lee Gray said Gillespie was driving northwest on Five Points Pike when he failed to negotiate a right curve seven-tenths of a mile west of McKinley Road.

His truck, which was traveling at an excessive speed, drove off the left side of the road for 36 feet and slammed into the tree. The truck rebounded seven feet after impact, and Gillespie was partially ejected from the vehicle.

The accident was initially reported to Mt. Sterling Police, who relayed the call to Pickaway County deputies.

Sheriff Dwight Radcliff and Detective J. Phillip Brown assisted Deputy Gray in the investigation.

Three people were hurt, one seriously, in a one car accident shortly

before midnight Friday on Poplar St. in Ashville.

Michael Blankenship, 16, Hedges St., Ashville, was admitted to Mercy Hospital, Columbus, for treatment of severe head injuries including a possible concussion.

Blankenship was passenger in a car driven by Felix D. Fyffe, 17, 11610 Poplar St., who told Deputy Terry Frazier that he was driving south after turning onto Poplar St. from Hall St. when he lost control of his car and crashed into a utility pole off the right side.

Fyffe suffered a broken rib and a laceration to his right knee, and another passenger, Charles K. Foster, 15, 11610 Poplar St., suffered a contusion to his right eye and lacerations to both legs and his right arm.

The Harrison Twp. Emergency Squad administered aid to the victims, and they were given additional care at Mercy Hospital, Columbus.

Fyffe was arrested for not having a driver's license, according to Deputy Frazier.

Three other people were hurt in a 3:40 a.m. Saturday accident between a semi truck and a car on I-71 near Mt. Sterling.

At press time, doctors at Mt. Carmel West Hospital, Columbus, were continuing to treat Michael O. Craft, 22, Galloway, for head contusions, left elbow and leg injuries, and multiple lacerations although he had not been admitted to the hospital.

A passenger in the Craft car, Neal A. Longfellow, 23, Columbus, was treated for a laceration to the top of his scalp, multiple lacerations, and an injury to his right elbow.

Truck driver Leroy White, 30, Glen Jean, W. Va., was treated at Doctor's West Hospital, Columbus, for contusions to his left side and leg and multiple lacerations.

Members of the Jackson Twp. and Harrisburg Emergency Squads administered first aid to the victims, according to investigating officer Deputy Tim Hasselbring.

Deputy Hasselbring said the vehicles were traveling north on I-71 in the right lane with the car in the lead when a trailing vehicle between the car and truck passed Craft's auto on the left side.

White then drove his semi into the rear of the car, which, he claimed, displayed no taillights.

Craft was arrested for driving an unsafe vehicle, and White was marked by Deputy Hasselbring for failing to maintain assured clear distance.

After impact, the semi truck and cab toppled to its left side. The cargo of cigarettes was dumped along I-71 through a cracked seam in the trailer top.

Officials from the Department of Taxation were summoned to the accident site to supervise the recovery of the cigarettes, Deputy Hasselbring said.

The accident was reported by citizen band radio, he said.

South Africans Perform Play About Prisons

NEW YORK (AP) — Four men run into a darkened New York theater, startling the audience with screams and shouts and lights that flash at times like the searchlights that follow a prison break.

"Is this America?" asks one of the men, crouched behind a chair in the audience, hiding from unseen pursuers.

"It looks more like Johannesburg to me."

The event is a play, entitled "Survival," performed by four South African actors. Raised in the black ghettos around Johannesburg, they bring their vision of the prison they say exists whether or not a South African black happens to be in jail.

They have traveled in the United States for about eight months, invited to participate in a college tour. The play is scheduled to open Off-Broadway in September.

Inspired by American writings, such as the works of James Baldwin, Richard Wright's "Native Son," and "The Autobiography of Malcolm X," they view their work as a sort of consciousness-raising.

"We were in Soweto (the black ghetto of Johannesburg) last year and soldiers came to stop the play," said one of the actors, Themba Ntinga.

The show had been seen in Johannesburg and Cape Town by blacks and whites together. The actors say they would never perform for a segregated audience.

"A lot of whites came to the show not because someone said it's a happy show, but because they heard we are putting it raw on the stage," said

Groucho Marx Is Dead

LOS ANGELES (AP) — Groucho Marx, whose patented duck walk and flick of a cigar combined with an irreverent wit to make him the most famous of America's zaniest team of comedians, is dead of pneumonia at age 86.

The bushy-eyebrowed, mustachioed Groucho, who recently was the center of a bitter court battle over who should be his guardian, died at 7:25 p.m. PDT Friday at Cedars-Sinai Medical Center. First word of the death was withheld for 50 minutes, giving the family time to quietly slip out of the hospital and into seclusion.

"I guess you could call this an end of an era. But I don't believe Groucho will ever leave us. He's too impudent,"

Randy Hopkins, 13-year-old son of Mr. and Mrs. James Hopkins, Ashville, placed first in Electricity I, and Eugene DeBruin, 11, son of Mr. and Mrs. Carl DeBruin, Circleville, took top honors in Electricity II projects . . .

Hopkins, a five-year 4-Header who got involved in electronics only this summer, won the category with his duel bell and buzzer and trouble light . . .

DeBruin won his second trophy in as many years at the State Fair, this time with a motor fuse box, heat lamp, and test lamp . . .

DeBruin, who plans to return to the fair for a try at a third trophy next year, claims that electricity is a family interest . . . His brother, Carl, received an "Outstanding of the Day" ribbon for his project in advanced heat, light, power, and controls, and his two older brothers took electricity projects as well.

BLOOD program officials are reminding county residents that many open slots remain on the schedule for Monday's visit of the Red Cross Bloodmobile . . .

In spite of extensive efforts made by the local Chapter to contact possible donors, at closing time on Friday there were less than 50 people on schedule . . . It is imperative that the goal of 150 units be exceeded in order to maintain the supply of blood for all who may need it . . . Pickaway County fell short of the goal in both the June and July visits of the Bloodmobile . . .

Hours are from 10 a.m. to 4 p.m. at Community United Methodist Church . . .

To make an appointment, please call the Red Cross, 474-5736.

South Africans Perform Play About Prisons

Selaelo Maredi, who composed music for the play.

"When the (white) audience came backstage, they asked if they are going to be driven into the sea," said Ntinga. "That's very unfounded."

The actors say they see South Africa as a frightened place. Through a series of vignettes, their play deals not so much with violence as with the ironies of a system which they say denies their humanity.

Maredi, who is 34, Ntinga, 25, and Seth Sibanda, 24, say they all have been in prison. Fana David Kenana, 23, says he has avoided going to jail, except for minor cases of detention.

Under South African law, a prisoner may be held without trial, so that many of those in jail are at the mercy of South African security police.

A liberal Johannesburg newspaper, the Rand Daily Mail, estimates that since 1963, 42 persons have died in detention in South African jails. Of those, 18 nonwhites have died in the last year.

Weather

A weak high pressure system moving eastward across Ohio will continue fair and clear weather in the state. Mostly sunny today with a high near 75, partly cloudy and cool tonight with a low near 60, and partly cloudy and warm Sunday with a high near 80. There is a 20 per cent chance of rain today and tonight and a 40 per cent chance on Sunday. Temperature extremes Friday were 77 and 52.

said Erin Fleming, his longtime companion.

Groucho had practiced his irreverent, chaotic brand of slapstick comedy for more than 65 years in vaudeville, films, radio and television.

Earlier in the day, a distraught Miss Fleming had told The Associated Press by telephone: "Groucho's just having a nice little dream now . . . He's just going to have a nap and rest his eyes for the next several centuries."

With Groucho when he died were his son, Arthur, daughter-in-law, Lois, and grandson, Andrew. Miss Fleming left about 15 minutes earlier.

Groucho lapsed into critical condition early Friday, slipping in and out of consciousness, a hospital spokesman said.

He had been hospitalized with pneumonia since June 22, reentering Cedars-Sinai only one day after he had been released following his recovery from hip surgery.

Groucho had lingered in "fair" condition for weeks, until Wednesday when his vital signs became erratic, a hospital spokesman said. The comedian's condition worsened early Friday when he began losing consciousness and had to be ad-

Cyrus Vance To Visit Peking

WASHINGTON (AP) — After a lapse of nearly two years in high-level U.S.-Chinese contacts, Secretary of State Cyrus R. Vance is going to Peking to convey American interests in human rights while exploring prospects for full diplomatic relations.

Carter administration officials are minimizing the goals on Vance's trip, which begins today.

In orchestrated background briefings Friday, officials told reporters there would be no "breakthrough" during the mission and that Taiwan would not be abandoned.

One top policymaker said Vance would appeal to the communist regime to be flexible about its insistence that the United States cut diplomatic ties with Taiwan and abrogate a 1954 defense treaty pledging support for the Nationalists if they come under attack.

This official said Vance would make the practical argument that the administration bears the "domestic burden of support for Taiwan."

Carter said last May he hopes to find a formula to bridge some of the difficulties still separating the United States and China. But Carter is reluctant to alienate senators sympathetic to the Nationalists while he also is trying to coax the lawmakers into supporting his Panama Canal treaty.

Vance, making the first trip to China by a top U.S. official since former President Gerald R. Ford went there in December 1975, will stop in Tokyo before arriving in Peking Monday. His four-day visit will provide a close-up assessment of the Chinese leadership following the deaths of Chairman Mao Tse-tung and Premier Chou En-lai.

U.S. officials said they did not know what impact Vance's outline of human rights policy would have on diplomatic relations. But reporters were told the administration believes there is "great value" in informing all countries, including China, about current U.S. policy in the area.

ministered oxygen and fed intravenously.

His early comedy years were spent with the family, the five Marx brothers. With Groucho's death, only Zeppo, 74, is still alive. The least known brother, Gummo, died this year. Chico died in 1961 and Harpo in 1964.

In recent years, a new era of affection for Groucho and the Marx Brothers had emerged, spawned by television reruns of their films, the "You Bet Your Life" game show and live theater revivals.

On May 6, 1972, Groucho embarked on what was to be a series of concerts. "An Evening of Groucho" at Carnegie Hall in New York that first night was sold out the day aMay 6, 1972, Groucho embarked on what was to be a series of concerts. "An Evening of Groucho" at Carnegie Hall in New York that first night was sold out the day after it was announced. More than 3,500 youths — many dressed as the various Marx Brothers — were turned away from the theater.

It was the 37-year-old Miss Fleming who brought Groucho out of retirement for the Carnegie Hall appearance, and

friends credited her with keeping him alive by her stimulating influence.

Friends also said Groucho was never aware in his last few months that his name was in the headlines during the court fight over who should be named guardian of his \$2.8 million estate.

The struggle was between Miss Fleming, a former actress who was hired as Groucho's secretary in 1970 and had been his almost constant companion since, and Arthur Marx, 56, the comedian's son.

At one point in the trial, his brother Zeppo testified: "Groucho's in love with her."

However, Arthur Marx pictured Miss Fleming as Groucho's grim tormentor, who latched onto Groucho for his money. Other witnesses said she badgered him with insults and curses.

The battle ended last July when the comedian's grandson, 27-year-old Andrew, was named permanent guardian.

Groucho, whose given name was Julius, was born Oct. 2, 1890, in New York City, the son of Jewish immigrants.

(Continued on Page 12)

Voyager Launched

Indications are the discussion will be largely general instead of dealing with Peking's domestic practices. Vance will take up human rights, the officials

said, as part of his "global" agenda, which also includes Africa, where the Chinese are said to be anxious about rising Soviet influence.

Voyager Launched

CAPE CANAVERAL, Fla. (AP) — The Voyager 2 spacecraft was to be launched today on a multibillion-mile journey that scientists hope will provide live television pictures of Jupiter and Saturn beginning in 1979 and perhaps the outer reaches of the solar system later.

The 1,800-pound Voyager 2 was being carried aloft by a Titan Centaur rocket set on a course that, depending on how well the early parts of the mission go, may also include flybys of Uranus and Neptune, which is about four billion miles from Earth.

The Voyager 2 craft was to be separated from the rocket about one hour after launch. Then Voyager's engine was to be fired to boost its speed to 32,300 miles per hour for the journey toward the planets.

The craft carries recorded messages for any deep space civilizations that might be listening, including one from President Carter and music ranging from a Bach Brandenburg Concerto to rock singer Chuck Berry's "Johnny B. Goode."

A twin craft, Voyager 1, is being readied for launch Sept. 1. Voyager 1 will be guided on a faster route and should reach the outer planets first.

Each Voyager carries two television cameras and sophisticated instruments.

Dr. Edward Stone, project scientist, said the Voyager mission is in the tradition of Galileo, the 17th-century scientist who first observed some of the moons of Jupiter and the rings of Saturn.

"Galileo was really the first person to extend our observation with a telescope. The Voyagers are a remarkable extension of man's ability

to observe the solar system," Stone said.

Voyager 1 will make its closest approach to Jupiter — about 170,000 miles — on March 5, 1979 and its closest approach to Saturn — about 85,000 miles — on Nov. 12, 1980. Voyager 2 will come closest to Jupiter — some 400,000 miles — on July 10, 1979. It would be a similar distance from Saturn on August 27, 1981.

Voyager 2 might pass Uranus in 1986. And there's a slim chance that it will pass Neptune in 1989. All four planets are nearly aligned, a phenomenon that takes place every 180 years.

The four worlds are in the same planetary family — the Jovian group — because they, like Jupiter, are large and share certain atmospheric properties with the solar system's largest planet. They differ from the other worlds, called terrestrial planets, which are more like the Earth in size and chemical makeup.

OSU Unaware Of Research

COLUMBUS, Ohio (AP) — Ohio State University officials are unaware of any mind control research that the Central Intelligence Agency says it sponsored at OSU years ago, a spokesman said Friday.

The CIA notified the university it was one of 80 institutions at which CIA-financed research with the hallucinogen LSD and a so-called knockout drop were conducted in the 1950 and 1960.

But William Merriman, OSU director of community services, said the university does not know what research the CIA was referring to, or who might have been involved in it.

He added that the university does not know if the CIA ever was involved in any research project at OSU, if any so-called mind control projects ever have or are being conducted at the university by anyone, or if any experiments with LSD or other hallucinogens have or are being conducted at OSU.

"One of the problems is that most of the administrators currently at the university were not here during those years. And thousands of projects were conducted during those years and since then," Merriman said.

"Also, I am not sure of the CIA's definition of mind control. We have had and continue to have many research projects here that involve psychology and psychiatry," Merriman said.

Word of the experiments were revealed recently in a letter by CIA general counsel Anthony H. Lapham to OSU President Harold Einarson. Lapham did not say who at OSU performed the research, according to Edwin M. Crawford, vice president for public affairs.

PUZZLETOWN AT LIBRARY — Kay Sahr, children's librarian, and Fritz Cox, Pickaway County Public Library staffer, stand behind a special "Puzzletown" display

in the children's reading area. The library recently received a complimentary Puzzletown play set from Playskool Inc., a division of the Milton Bradley Company.

Girl Critical After Gun Accident

A six-year-old Lockbourne girl remains in critical condition in Children's Hospital, Columbus, as a result of an accidental gunshot wound.

Hospital personnel were attempting today to stabilize the condition of Nicole Rosenberry before attempting surgery.

Nicole, the daughter of Mr. and Mrs. Mitchell Rosenberry, Lot 2, Poplar Grove Trailer Court, was struck in the abdomen by a blast from a .22 caliber rifle about 10:30 a.m. Friday.

The shooting occurred at the Lot A-2 home of Mr. and Mrs. Melvin Holt.

Mrs. Holt told Pickaway County Sheriff's Deputy Jim Fite that she permitted her eight-year-old son Melvin Jr. and his two sisters to stay at home while she went to a nearby grocery store.

Young Melvin was playing in the closet in his parent's bedroom when he found the loaded weapon.

He apparently thought it was a toy gun and accidentally shot Nicole, who was also playing in the house.

The youngster was given emergency treatment by Harrison Twp. Emergency squadmen and taken to the hospital by the Scioto Twp. Squad.

OSU Unaware Of Research

COLUMBUS, Ohio (AP) — Ohio State University officials are unaware of any mind control research that the Central Intelligence Agency says it sponsored at OSU years ago, a spokesman said Friday.

The CIA notified the university it was one of 80 institutions at which CIA-financed research with the hallucinogen LSD and a so-called knockout drop were conducted in the 1950 and 1960.

Carter administration officials are minimizing the goals on Vance's trip, which begins today.

In orchestrated background briefings Friday, officials told reporters there would be no "breakthrough" during the mission and that Taiwan would not be abandoned.

One top policymaker said Vance would appeal to the communist regime to be flexible about its insistence that the United States cut diplomatic ties with Taiwan and abrogate a 1954 defense treaty pledging support for the Nationalists if they come under attack.

This official said Vance would make the practical argument that the administration bears the "domestic burden of support for Taiwan."

Carter said last May he hopes to find a formula to bridge some of the difficulties still separating the United States and China. But Carter is reluctant to alienate senators sympathetic to the Nationalists while he also is trying to coax the lawmakers into supporting his Panama Canal treaty.

Vance, making the first trip to China by a top U.S. official since former President Gerald R. Ford went there in December 1975, will stop in Tokyo before arriving in Peking Monday. His four-day visit will provide a close-up assessment of the Chinese leadership following the deaths of Chairman Mao Tse-tung and Premier Chou En-lai.

U.S. officials said they did not know what impact Vance's outline of human rights policy would have on diplomatic relations. But reporters were told the administration believes there is "great value" in informing all countries, including China, about current U.S. policy in the area.

Indications are the discussion will be largely general instead of dealing with Peking's domestic practices. Vance will take up human rights, the officials

said, as part of his "global" agenda, which also includes Africa, where the Chinese are said to be anxious about rising Soviet influence.

Voyager Launched

CAPE CANAVERAL, Fla. (AP) — The Voyager 2 spacecraft was to be launched today on a multibillion-mile journey that scientists hope will provide live television pictures of Jupiter and Saturn beginning in 1979 and perhaps the outer reaches of the solar system later.

The 1,800-pound Voyager 2 was being carried aloft by a Titan Centaur rocket set on a course that, depending on how well the early parts of the mission go, may also include flybys of Uranus and Neptune, which is about four billion miles from Earth.

The Voyager 2 craft was to be separated from the rocket about one hour after launch. Then Voyager's engine was to be fired to boost its speed to 32,300 miles per hour for the journey toward the planets.

The craft carries recorded messages for any deep space civilizations that might be listening, including one from President Carter and music ranging from a Bach Brandenburg Concerto to rock singer Chuck Berry's "Johnny B. Goode."

A twin craft, Voyager 1, is being readied for launch Sept. 1. Voyager 1 will be guided on a faster route and should reach the outer planets first.

Each Voyager carries two television cameras and sophisticated instruments.

Dr. Edward Stone, project scientist, said the Voyager mission is in the tradition of Galileo, the 17th-century scientist who first observed some of the moons of Jupiter and the rings of Saturn.

"Galileo was really the first person to extend our observation with a telescope. The Voyagers are a remarkable extension of man's ability

to observe the solar system," Stone said.

Voyager 1 will make its closest approach to Jupiter — about 170,000 miles — on March 5, 1979 and its closest approach to Saturn — about 85,000 miles — on Nov. 12, 1980. Voyager 2 will come closest to Jupiter — some 400,000 miles — on July 10, 1979. It would be a similar distance from Saturn on August 27, 1981.

Voyager 2 might pass Uranus in 1986. And there's a slim chance that it will pass Neptune in 1989. All four planets are nearly aligned, a phenomenon that takes place every 180 years.

The four worlds are in the same planetary family — the Jovian group — because they, like Jupiter, are large and share certain atmospheric properties with the solar system's largest planet. They differ from the other worlds, called terrestrial planets, which are more like the Earth in size and chemical makeup.

Ideas From Corn And Soybean Day

By **GEORGE HAMRICK**
County Extension Agent,
Agriculture

About 75 per cent of the corn in Ohio was planted too late, said L. H. Shepherd, Extension Agronomist at The Ohio State University, as he talked

to about 500 farmers attending Corn and Soybean Day in northwestern Franklin County on August 4. He defined planting corn on time as finishing by May 10, and surveys show that only 25 per cent was planted by that time this year.

Anyone with a big acreage to plant must start early enough to finish by May 10, he said, as he stood in front of some good looking corn he had planted on March 30 and April 6. Over an 8-year period on his high fertility plots, with 240 pounds of nitrogen fertilizer and a 28,000 seed drop, Shepherd has harvested 170 to 180 bushels per acre when planted between late March and May 10 but only 138 bushels from late May plantings and 93 bushels from June plantings.

Growers looking over corn and soybean plots heard that more than 50 per cent of the corn grown in the state

is nitrogen deficient. They saw results of weed control in corn and soybeans from different combinations of herbicides. These plots, on the Farm Science Review grounds, may be seen during that big farm show on September 20, 21, and 22.

Corn and Soybean Day was sponsored by the Ohio Agricultural Research and Development Center (OARDC) in Cooperation with the Ohio Cooperative Extension Service. OARDC Agronomist J. W. Johnson revealed that use of N-Serve to keep nitrogen from leaching so readily worked best with anhydrous ammonia. Used at the rate of one quarter of N-Serve per acre to 100 pounds of N in anhydrous ammonia, it increased corn yields from 139 to 165 bushels per acre. Used with 28 per cent N solution, the one quart rate of N-Serve caused no yield response when injected 4 inches below the soil surface and actually decreased yields by 29 bushels per acre when sprayed over the surface in a weed and feed application.

Serve caused no yield response when injected 4 inches below the soil surface and actually decreased yields by 29 bushels per acre when sprayed over the surface of a weed and feed application.

A combination of tile and surface drainage will increase corn yields an average of 30 bushels per acre compared to surface drainage alone, said OARDC agricultural engineer Glenn O. Schwab. There is less variation in soybean yields due to improved drainage, said Schwab, because they are planted after the April-May period when most benefits from drainage are obtained.

Four combine headers were on hand at the field day with new flexible floating cutterbars that rim soybean field losses to 3 per cent or less.

The best time to start corn harvest is when the grain tests 24 per cent moisture, said W. R. Schnug, Extension Agricultural Engineer. Each bushel contains about 4.9 less pounds of water than a bushel at 30 per cent, so the corn can be dried more quickly and cheaply. To save on fuel costs, he recommended use of low-temperature, batch bin, counter flow, and concurrent flow dryers with bin cooling. Avoid excessive handling, excessive heating and rapid cooling, he said.

As for aerating stored grain, said Schnug, blow air up while filling. When the bin is full and temperature is stabilized at 40 degrees, the aeration fan should be made to pull air down through the bin. Then, said Schnug, aerate 24 hours each 10 to 14 days when air temperature is within ten degrees of the grain temperature.

Reasons for building grain storage on the farm, said Richard Duvick, Extension Economist, are convenience, a profitable investment, it's cheaper than at the elevator, and has greater flexibility. He said each farm operator has to evaluate his situation and has to determine whether local elevators will have storage for him.

News For Homemakers

By **BEVERLY SEYMOUR BECHTEL**
County Extension Agent,
Home Economics

These are busy days! The three big demands in 4-H, food preservation questions, and preparing for a new season for Extension Homemaker clubs soon to begin all overlap in August. I'll be out of the office Wednesday and Friday next week to be at the State Fair with our 4-H winners in foods and clothing. Please leave a message when you can and I will get back to you if you call when I'm gone.

Do you have any antique food preservation items? I would like to display old canners, kitchen equipment, old cookbooks in a "kitchen" setting at Farm Heritage Days at the Green Farm on September 10 and 11. Also, members of the Quilter's Guild will display antique quilts. If you have one you would be willing to display, contact Mabel Walker at 474-6466. Only antique quilts or those with historical significance will be displayed (replicas, bicentennial, etc.). Please contact Mabel by September 2. Each quilt will have a display card with name of owner and information. A special recognition will be provided by Guild members for the "Most Outstanding Antique Quilt" displayed.

Any other person or group interested in participating in Farm Heritage Days is most welcome to join the fun. Just let me know (474-7534) or contact the Greens.

and spokesmen for the egg industry challenge its dietary recommendations on cholesterol and urge a retraction of its report, "Dietary Goals for the U.S."

Calling the goals a "program based on faith, hope and fear," Robert Olson, University of St. Louis Medical School, said there is no evidence that the dietary goals would affect morbidity or mortality from heart disease, stroke, cancer, diabetes, arteriosclerosis or cirrhosis of the liver. He also criticized "the lack of a defined role for the health professional in the program, and the danger of premature and unsubstantiated public health education."

Norton Spritz, a researcher at the Veterans Administration Hospital in New York City, said the Committee's decision to recommend lowered cholesterol intake "on a hunch" could weaken more important health advice, such as the need to stop smoking and to control high blood pressure.

A panel representing the United Egg Producers said the Committee's recommendation that persons eat no more than 300 milligrams of cholesterol daily could reduce egg consumption and shrink the industry by 44 per cent. The egg producers noted that, in addition to causing widespread economic dislocation, the cholesterol recommendation could increase the prestige of egg substitutes and other fabricated foods. (They conceded, under questioning, that declining egg consumption is mainly due to changing lifestyles and the demise of the leisurely family breakfast.)

To a skeptical audience of Committee members and aides, the witnesses cited studies and surveys they said contradict the low-cholesterol recommendation. They noted that the dietary goals have not won unanimous endorsement from the medical profession, and that the American Medical Association has opposed them. They criticized the committee for recommending a low-cholesterol diet for everyone despite medical opinion that it would be useful only for males aged 20 to 50 with serum cholesterol levels above 200.

As with earlier meat industry critics, Chairman George S. McGovern (D-S.D.) cited letters of support and commendation from a variety of heart disease researchers, including some whose studies Olson and Spritz had mentioned. "What industry representatives fail to realize is that, as public policymakers, our standard of proof must be different from that of the research scientists," he said. "When there is an overwhelming probability or consensus on a subject we have an obligation to make recommendations to the public."

Carlisle To Speak At Swine Day

By **GEORGE HAMRICK**
County Extension Agent,
Agriculture

G. R. (Dick) Carlisle, a well-known teacher and swine judge will be the featured speaker at Swine Day, September 8, at the Western Branch of the Ohio Agricultural Research and Development Center, South Charleston. He is Extension Swine Specialist at the University of Illinois.

Carlisle recently spent six months visiting 22 states that produce 90 per cent of the nation's hogs. He interviewed producers, scientists, and meat packers on his tour.

Carlisle is well informed on the subject of highly intensified, high volume swine production systems, according to Herbert Barnes, Extension Animal Science Specialist at The Ohio State University.

The Swine Day program will include tours and demonstrations. A 46-page Swine Day Report will be provided all visitors. The report will include topics on swine nutrition, health, selection, marketing, and management.

Persons desiring to go with the Pickaway County group should call the County Extension Office, 474-7534.

Soybean Harvest Clinic Set By Lands Garage

Lands Garage, Stoutsville, will sponsor a free, one-night, "Soybean Harvesting Short Course" for interested farmers in this area on September 7.

Developed by White Farm Equipment Company, the one and one-half hour audio-visual seminar features two movies and a slide film demonstrating how farmers can save up to 2½ bushels of soybeans per acre while increasing combine field speeds by up to 50 per cent.

At the conclusion of the Short Course workshop, a drawing will be held with the winner receiving a free White Outdoor Products heavy-duty pressure washer, which carries a retail value of \$388.

Registration prior to the Short Course is requested for planning purposes—either by visiting or by telephoning in advance. Registration forms will also be available at the door.

White Farm Equipment Company, a subsidiary of White Motor Corporation, is a full-line manufacturer of farm tractors, implements, harvesting equipment and accessories sold throughout North America.

People Helping People

By **SCOTT KLEON**
County Extension Agent, 4-H

I would like to start out by thanking all of the people that helped make the Pickaway County Fair a success in 1977. Thanks, also, to the people who offered suggestions for improvement of next year's fair. I appreciated the help that I received as a new 4-H Agent starting out the second day of the fair.

Needless to say, it was quite an experience for me, but the people in Pickaway County made it a very pleasant experience. We really appreciate the support of the 4-H program in Pickaway County. The people in Pickaway County are super. They are friendly, polite, and seem to have a great interest in people. My wife and I are very pleased to be in Pickaway County and I could not think of a better phrase for the county than "People Helping People."

Extension Calendar

- August 23 — Cattleman's Barbecue, 6:30 p.m., Pete Everhart Farm. (Get tickets at Extension Office by noon Monday, August 22.)
- August 23 — MDM Field Day, 1:30 p.m., Portsmouth
- August 24 — Pickaway Day at State Fair, 4-H Clothing, Rhodes Center
- August 25 — Quilter's Society, 9:30 a.m., Trinity Lutheran Church
- August 26 — Pickaway 4-H Foods Day at State Fair, Lausche Building
- August 29 — Farmers Club Rural Urban Program, Deercreek Dam, 6:30 p.m.
- Sept. 8 — Swine Day, West Branch, OARDC, S. Charleston
- Sept. 15 — Grain Marketing School Update, 1 p.m.
- Sept. 20-22 — Farm Science Review, Don Scott Airfield

Everyone seems concerned about diet these days. Much has been said and suggested concerning eggs and cholesterol and their undesirable effects on health. In all fairness, I cite the following points. They are excerpted from an article in the August 4, 1977, issue of Community Nutrition Institute Weekly Report.

The Senate Nutrition Committee last week heard two medical researchers

and spokesmen for the egg industry challenge its dietary recommendations on cholesterol and urge a retraction of its report, "Dietary Goals for the U.S."

Calling the goals a "program based on faith, hope and fear," Robert Olson, University of St. Louis Medical School, said there is no evidence that the dietary goals would affect morbidity or mortality from heart disease, stroke, cancer, diabetes, arteriosclerosis or cirrhosis of the liver. He also criticized "the lack of a defined role for the health professional in the program, and the danger of premature and unsubstantiated public health education."

Norton Spritz, a researcher at the Veterans Administration Hospital in New York City, said the Committee's decision to recommend lowered cholesterol intake "on a hunch" could weaken more important health advice, such as the need to stop smoking and to control high blood pressure.

A panel representing the United Egg Producers said the Committee's recommendation that persons eat no more than 300 milligrams of cholesterol daily could reduce egg consumption and shrink the industry by 44 per cent. The egg producers noted that, in addition to causing widespread economic dislocation, the cholesterol recommendation could increase the prestige of egg substitutes and other fabricated foods. (They conceded, under questioning, that declining egg consumption is mainly due to changing lifestyles and the demise of the leisurely family breakfast.)

To a skeptical audience of Committee members and aides, the witnesses cited studies and surveys they said contradict the low-cholesterol recommendation. They noted that the dietary goals have not won unanimous endorsement from the medical profession, and that the American Medical Association has opposed them. They criticized the committee for recommending a low-cholesterol diet for everyone despite medical opinion that it would be useful only for males aged 20 to 50 with serum cholesterol levels above 200.

As with earlier meat industry critics, Chairman George S. Farmers Discovering No-Till Is Best Conservation Method

By CAROL A. KROTJIE
Ohio Department of Natural Resources

Some Ohio farmers are discovering that the best way to conserve their soil and water resources is to farm without plowing or cultivating their fields.

The unplowed field with its previous year's crop residue is part of a crop growing method called no-till farming.

Basically, no-tillage is the substitution of herbicides and mulch cover for horsepower.

"In recent years, no-till farming has been challenging the traditional methods of crop production," said Floyd Heft, chief of the Ohio Department of Natural Resources' (ODNR) Division of Soil and Water Districts.

The Division has a district office in each of Ohio's 88 counties where trained technicians assist farmers in planning and applying soil and water conservation practices to control erosion and improve and maintain water quality.

"Conventional farmers plow the soil and till it over and over to loosen the seedbed and bury the previous year's crop residue," Heft said.

"The no-till farmer rarely disturbs the soil by plowing. This leaves all the decaying vegetation and the previous crop residue on the land surface. The

ECONOGRAM

ECONOMIC INFORMATION RELATING TO AGRICULTURE

Unemployment dropped to a post recession low of 6.9 per cent in July from 7.1 per cent in June. Still it was considered a lackluster report considering a year end goal of unemployment at about 6.5 per cent. The reason: divergent employment and unemployment trends. Employment at 90,561,000, fell 118,000 people. Unemployment dropped 336,000 from June to July. Unemployment is more important politically, but employment is a better indicator as to the health of the economy.

Consumer price index in June reached 181.8 per cent of the 1967 base. This was 6.1 per cent above one year ago. The May-June rise was 0.7 per cent (8.4 per cent per year). The June food index was 1 per cent above month earlier. Food purchased in grocery stores rose 1.1 per cent in the month. The price of food eaten away from home rose 1 per cent.

Prices received by farmers decreased 2 per cent in the month ended July 15, and were 7 per cent below year ago. Major contributors were lower prices for soybeans, all grains, hay, oranges and tobacco. Higher prices for hogs, cattle, eggs and broilers were partially offsetting. Prices paid by farmers for commodities and services, interest, taxes and wages were down 1 per cent from June, but 5 per cent above July, 1976.

Hog price trends into the fall are expected to decline though they may remain above the depressed markets that developed in the fall of 1976. Even though hog prices have dropped sharply from the high \$40's in July still they are highly profitable due to declining corn and protein costs. The corn-hog ratio is above 25:1—a point at which expansion in hog numbers is almost certain. A big increase in fall and early 1978 sow farrowings will lead to depressed hog prices and unhappy producers in 1978.

Milk output in the last half of 1977 may be up about 2 per cent from the same period in 1976. With no substantial decline in milk cow numbers and expectations for a large feed crops this fall and favorable milk-feed price ratios, the stage is set for strong increases in output of milk per cow. USDA price support removal in the form of butter, cheese and nonfat dry milk will continue large into the fall.

Corn production in U.S. as of August 1 was estimated at 6.1 billion bushels or 2 per cent below the 1976 crop. Yields were estimated to average 87.3 bushels per acre and compares to 87.4 bushels per harvested acre in 1976. The acreage for harvest at 69.8 million acres is nearly 2 per cent below last year. Ohio farmers are expected to harvest 341,250,000 bushels — nearly 14 per cent below last year. The yield of 91 bushels per acre compares to the 101 bushels last year. Domestic use of corn is expected to increase substantially from the disappointing use of 1976. Exports of corn could approach the 1976-77 market year foreign shipments of 1.65 billion bushels. Even so, supplies will be large enough that corn prices will be determined largely by the price support level.

Soybean output in U.S. was placed at 1.6 million bushels on August 1. This is an increase of 26.6 per cent over the 1976 crop and comes from 58.2 million acres and yields estimated at 27.5 bushels. Last year yields averaged 25.6 bushels per acre. Ohio farmers expect to harvest 104,780,000 bushels from 3,380,000 acres with yields of 31 bushels per acre. Last year Ohio farmers harvested 93,600,000 bushels. Domestic use of soybeans is expected to set a new record in 1977-78 and exports will be strong. But carryover on August 31, 1978 may increase. This means prices will be well below the 1976-77 market year annual average price to Ohio farmers estimated to be near \$7 per bushel.

nutrients needed for growing crops remain in the soil and are not eroded away."

During a single growing season, the no-till farmer will make as few as two or three trips over a field, planting and fertilizing, spraying herbicides and harvesting. The farmer who tills his land before planting will travel over his field four to six times.

Heft said the no-till farmer doesn't need a barn full of equipment, just a tractor, planter, sprayer and combine, but doesn't advise throwing away the old plow.

"Some no-till farmers may want to plow their fields about once every five years," Heft added.

This saves about one-fourth the cost of fuel and some labor and equipment expenses compared to what it takes using conventional tillage systems to farm.

Not only is no-till farming more economical than conventional means, it also saves water and soil.

"A mulch cover prevents raindrops from directly hitting the ground, breaking loose soil particles, and washing them away," Heft added.

A farmer using the no-till method could have up to 90 per cent less water runoff. Preventing water runoff and the resulting erosion preserves the life of the topsoil.

Also, there is only half the usual direct evaporation loss from fields which have not been cultivated.

This results in 20 to 25 per cent more water for crop growth, which could be significant in times of shortages of rainfall.

However, farmers are not easily convinced to change farming methods used for generations.

"It is easy to make mistakes with no-till farming," Heft said. "With no-till you can't make another trip around the field to bury your mistakes with a plow or cultivate problem weeds. You only get one chance."

To be successful at no-tillage, Heft stressed that certain insect pests and potential diseases have to be carefully watched.

He said a no-till cropping system requires a combination of weed and pest control chemicals for success, depending on the crop and existing residue conditions.

"The best way to control weeds with no-till is through an integrated program involving chemicals and mulch cover," he continued.

"Certain insects or diseases may affect corn and not soybeans," Heft said. "So if you plant soybeans where corn grew the previous year, this will help keep the problem under control and save the farmer money on additional herbicides."

Most farmers using the no-tillage system today began on an experimental basis to control soil erosion on their land.

Clayton Oman has been planting no-till crops the past five years on his farm near Findlay.

"What really counts is when harvest time comes and you see your corn is taller and equals or exceeds the yield of your neighbor who plowed the fields before planting."

"I began by only planting two acres this way and when I saw how well the crops grew, I planted all my land no-till the next year."

Oman doesn't own a disk, plow or

harrow. When he is ready to plant his crops, he just goes out with a special planter he describes in terms of a potato digger.

"It lies almost horizontal with the ground and scalps off about 3/4 of an inch from the top of the soil. The planter then drops the seed on the soil and a narrow press wheel presses the seed into the undisturbed soil."

"The planter then places loose soil on the top of the seed which allows for excellent germination even though the weather may turn dry," Oman said. "The moisture for germination comes from below the seed through undisturbed soil."

Robert Mayer, who farms near Lima, was hesitant at first about trying the no-till cropping system.

"I decided to try this method on my land because of soil erosion," Mayer said. "Now I have a big, four-wheel-drive tractor in the barn that I hardly use since I've been planting no-till."

Mayer's method of planting is slightly different from Oman's. Oman plants his crops on ridges made the previous year by a heavy duty cultivator. This helps to overcome the wetness problem on his heavy soils, enabling him to plant earlier in the spring because the soil on the ridges dries and warms up faster than the soil between the ridges. Oman plants the crop seeds in the same location on the ridges each year.

Mayer doesn't plant on ridges. Instead he alternates rows so that he plants between the previous year's rows which are 30 inches apart.

"It is easier to plant off of last year's row because you avoid all the roots and stubble from last year's crop," Mayer added.

Mayer's planter makes a shallow groove about two inches deep in the untilled soil, drops the seed into the groove and a rear tire packs the seed firmly into the ground.

Because his cropland is fairly well drained, Mayer can get by without planting on ridges like Clayton Oman. This allows Mayer the flexibility of alternating crops each year. In one field he will plant corn one year, soybeans the next and wheat the third year. The fourth year he starts all over with corn.

Crop rotation helps control insect and disease problems in addition to reducing nitrogen fertilizer costs.

"The only way to have less tillage is by not planting at all," Heft said.

For more information concerning no-till farming, contact your local Soil and Water Conservation District or the Division of Soil and Water Districts, Ohio Department of Natural Resources, Fountain Square, Columbus 43224.

Typhoid Fever Source Found At Gallipolis

GALLIPOLIS, Ohio (AP) — Gallipolis State Institute officials believe they have traced the source of a case of typhoid contracted by a resident last week.

Officials said the roommate of the woman who came down with the disease was found to be a carrier of the typhoid organism. Doctors said she never showed symptoms of typhoid, however she was being treated for the condition.

MDM Virus Hits Ohio Sweet Corn Fields

By GEORGE HAMRICK
County Extension Agent, Agriculture

A major outbreak of a virus disease in Ohio sweet corn last August has put research workers in that state of Michigan on alert and triggered bi-weekly surveys of 1977 sweet corn fields throughout northern Ohio.

According to Dr. D. T. Gordon, an Ohio Agricultural Research and Development Center Plant Pathologist, the disease was identified as maize dwarf mosaic (MDM) which has been present for at least a dozen years in the southern half of Ohio and in states farther south. The 1976 outbreak in northern Ohio was the first for the disease in this area of the state where the virus's overwintering host, Johnsongrass, is not prevalent.

In a presentation to scientists attending the annual meeting of the American Phytopathological Society, Gordon revealed that all plants in some late-planted fields were infected. Transmission assays of 141 samples showed 60 per cent infected with MDMV strain A and 50 per cent with MDMV strain B. Eighteen per cent of the diseased plants were infected with both virus strains. Six strains of the virus have been characterized thus far, but only strains A and B have been identified regularly from diseased corn.

This year, the Ohio research workers have found MDMV infrequently in sweet corn from northern fields in surveys through June. This indicates that the virus apparently hasn't found an overwintering host in northern Ohio. If the MDMV disease symptoms appear this month in the late-planted sweet corn, Gordon said it will indicate that the source of the virus is infected seed or virus-carrying aphids from southern Ohio.

Gordon warned that the spread of MDMV into non-Johnsongrass areas could pose problems for the northern cornbelt. He explained that MDMV losses have been minimized in dent corn through the use of resistant or tolerant hybrids. Thus far, research workers have not found dependable resistance or tolerance to virus diseases in sweet corn lines.

Gordon said that in spring 1977, a cooperative effort (involving seed companies, sweet corn producers, and research workers from OARDC, the U.S. Dept. of Agriculture, and Cornell University) was initiated to test a wide selection of commercial sweet corn hybrids for resistance or tolerance to both MDMV and the maize chlorotic dwarf virus (MCDV). These tests are now underway —

The Ohio research has been a cooperative effort involving Gordon; Dr. O. E. Bradfute and Dr. D. C. Robertson, electron microscopists; Dr. K. Knoke, USDA entomologists; Dr. R. Louie, USDA plant pathologist; and Dr. L. R. Nault, OARDC entomologist.

The research was among a number of studies reported during the 1977 annual meeting of the American Phytopathological Society. The Society, a professional association of scientists and others interested in the study and control of plant diseases, has

The nation's airlines carried a record 223 million passengers in 1976, reports the Air Transport Association.

Evangelists Arrested

SIDNEY, Ohio (AP) — Five evangelists demonstrating against The Way International were arrested Thursday night on charges they disrupted The Way's music festival at the Shelby County fairgrounds.

The five appeared in Sidney Municipal Court and their cases were continued to Monday. They were freed on \$25 bond each.

The arrests were the culmination of several incidents outside the fairgrounds since the festival began.

The American farmer deserves a lot of credit.

Our 60th anniversary is an appropriate time to salute the greatest producer of food and fiber in the world — American farmers.

Sixty years ago, the Land Bank was established to help the farmer by providing dependable, long-term financing.

We've changed a lot over those years, but our purpose has remained the same... to provide farmers with the credit to produce that food and fiber.

Farmers Discovering No-Till Is Best Conservation Method

By CAROL A. KROTJE
Ohio Department of Natural Resources

Some Ohio farmers are discovering that the best way to conserve their soil and water resources is to farm without plowing or cultivating their fields.

The unplowed field with its previous year's crop residue is part of a crop growing method called no-till farming.

Basically, no-tillage is the substitution of herbicides and mulch cover for horsepower.

"In recent years, no-till farming has been challenging the traditional methods of crop production," said Floyd Heft, chief of the Ohio Department of Natural Resources' (ODNR) Division of Soil and Water Districts.

The Division has a district office in each of Ohio's 88 counties where trained technicians assist farmers in planning and applying soil and water conservation practices to control erosion and improve and maintain water quality.

"Conventional farmers plow the soil and till it over and over to loosen the seedbed and bury the previous year's crop residue," Heft said.

"The no-till farmer rarely disturbs the soil by plowing. This leaves all the decaying vegetation and the previous crop residue on the land surface. The

ECONOGRAM

ECONOMIC INFORMATION RELATING TO AGRICULTURE

Unemployment dropped to a post recession low of 6.9 per cent in July from 7.1 per cent in June. Still it was considered a lackluster report considering a year end goal of unemployment at about 6.5 per cent. The reason: divergent employment and unemployment trends. Employment at 90,561,000, fell 118,000 people. Unemployment dropped 336,000 from June to July. Unemployment is more important politically, but employment is a better indicator as to the health of the economy.

Consumer price index in June reached 181.8 per cent of the 1967 base. This was 6.1 per cent above one year ago. The May-June rise was 0.7 per cent (8.4 per cent per year). The June food index was 1 per cent above month earlier. Food purchased in grocery stores rose 1.1 per cent in the month. The price of food eaten away from home rose 1 per cent.

Prices received by farmers decreased 2 per cent in the month ended July 15, and were 7 per cent below year ago. Major contributors were lower prices for soybeans, all grains, hay, oranges and tobacco. Higher prices for hogs, cattle, eggs and broilers were partially offsetting. Prices paid by farmers for commodities and services, interest, taxes and wages were down 1 per cent from June, but 5 per cent above July, 1976.

Hog price trends into the fall are expected to decline though they may remain above the depressed markets that developed in the fall of 1976. Even though hog prices have dropped sharply from the high \$40's in July still they are highly profitable due to declining corn and protein costs. The corn-hog ratio is above 25:1—a point at which expansion in hog numbers is almost certain. A big increase in fall and early 1978 sow farrowings will lead to depressed hog prices and unhappy producers in 1978.

Milk output in the last half of 1977 may be up about 2 per cent from the same period in 1976. With no substantial decline in milk cow numbers and expectations for a large feed crops this fall and favorable milk-feed price ratios, the stage is set for strong increases in output of milk per cow. USDA price support removal in the form of butter, cheese and nonfat dry milk will continue large into the fall.

Corn production in U.S. as of August 1 was estimated at 6.1 billion bushels or 2 per cent below the 1976 crop. Yields were estimated to average 87.3 bushels per acre and compares to 87.4 bushels per harvested acre in 1976. The acreage for harvest at 69.8 million acres is nearly 2 per cent below last year. Ohio farmers are expected to harvest 341,250,000 bushels—nearly 14 per cent below last year. The yield of 91 bushels per acre compares to the 101 bushels last year. Domestic use of corn is expected to increase substantially from the disappointing use of 1976. Exports of corn could approach the 1976-77 market year foreign shipments of 1.65 billion bushels. Even so, supplies will be large enough that corn prices will be determined largely by the price support level.

Soybean output in U.S. was placed at 1.6 million bushels on August 1. This is an increase of 26.6 per cent over the 1976 crop and comes from 58.2 million acres and yields estimated at 27.5 bushels. Last year yields averaged 25.6 bushels per acre. Ohio farmers expect to harvest 104,780,000 bushels from 3,380,000 acres with yields of 31 bushels per acre. Last year Ohio farmers harvested 93,600,000 bushels. Domestic use of soybeans is expected to set a new record in 1977-78 and exports will be strong. But carryover on August 31, 1978 may increase. This means prices will be well below the 1976-77 market year annual average price to Ohio farmers estimated to be near \$7 per bushel.

nutrients needed for growing crops remain in the soil and are not eroded away."

During a single growing season, the no-till farmer will make as few as two or three trips over a field, planting and fertilizing, spraying herbicides and harvesting. The farmer who tills his land before planting will travel over his field four to six times.

Heft said the no-till farmer doesn't need a barn full of equipment, just a tractor, planter, sprayer and combine, but doesn't advise throwing away the old plow.

"Some no-till farmers may want to plow their fields about once every five years," Heft added.

This saves about one-fourth the cost of fuel and some labor and equipment expenses compared to what it takes using conventional tillage systems to farm.

Not only is no-till farming more economical than conventional means, it also saves water and soil.

"A mulch cover prevents raindrops from directly hitting the ground, breaking loose soil particles, and washing them away," Heft added.

A farmer using the no-till method could have up to 90 per cent less water runoff. Preventing water runoff and the resulting erosion preserves the life of the topsoil.

Also, there is only half the usual direct evaporation loss from fields which have not been cultivated.

This results in 20 to 25 per cent more water for crop growth, which could be significant in times of shortages of rainfall.

However, farmers are not easily convinced to change farming methods used for generations.

"It is easy to make mistakes with no-till farming," Heft said. "With no-till you can't make another trip around the field to bury your mistakes with a plow or cultivate problem weeds. You only get one chance."

To be successful at no-tillage, Heft stressed that certain insect pests and potential diseases have to be carefully watched.

He said a no-till cropping system requires a combination of weed and pest control chemicals for success, depending on the crop and existing residue conditions.

"The best way to control weeds with no-till is through an integrated program involving chemicals and mulch cover," he continued.

"Certain insects or diseases may affect corn and not soybeans," Heft said. "So if you plant soybeans where corn grew the previous year, this will help keep the problem under control and save the farmer money on additional herbicides."

Most farmers using the no-tillage system today began on an experimental basis to control soil erosion on their land.

Clayton Oman has been planting no-till crops the past five years on his farm near Findlay.

"What really counts is when harvest time comes and you see your corn is taller and equals or exceeds the yield of your neighbor who plowed the fields before planting."

"I began by only planting two acres this way and when I saw how well the crops grew, I planted all my land no-till the next year."

Oman doesn't own a disk, plow or

harrow. When he is ready to plant his crops, he just goes out with a special planter he describes in terms of a potato digger.

"It lies almost horizontal with the ground and scalps off about 3/4 of an inch from the top of the soil. The planter then drops the seed on the soil and a narrow press wheel presses the seed into the undisturbed soil."

"The planter then places loose soil on the top of the seed which allows for excellent germination even though the weather may turn dry," Oman said. "The moisture for germination comes from below the seed through undisturbed soil."

Robert Mayer, who farms near Lima, was hesitant at first about trying the no-till cropping system.

"I decided to try this method on my land because of soil erosion," Mayer said. "Now I have a big, four-wheel-drive tractor in the barn that I hardly use since I've been planting no-till."

Mayer's method of planting is slightly different from Oman's. Oman plants his crops on ridges made the previous year by a heavy duty cultivator. This helps to overcome the wetness problem on his heavy soils, enabling him to plant earlier in the spring because the soil on the ridges dries and warms up faster than the soil between the ridges. Oman plants the crop seeds in the same location on the ridges each year.

Mayer doesn't plant on ridges. Instead he alternates rows so that he plants between the previous year's rows which are 30 inches apart.

"It is easier to plant off of last year's row because you avoid all the roots and stubble from last year's crop," Mayer added.

Mayer's planter makes a shallow groove about two inches deep in the untilled soil, drops the seed into the groove and a rear tire packs the seed firmly into the ground.

Because his cropland is fairly well drained, Mayer can get by without planting on ridges like Clayton Oman. This allows Mayer the flexibility of alternating crops each year. In one field he will plant corn one year, soybeans the next and wheat the third year. The fourth year he starts all over with corn.

Crop rotation helps control insect and disease problems in addition to reducing nitrogen fertilizer costs.

"The only way to have less tillage is by not planting at all," Heft said.

Outcasts Of The Adriatic

Tiny Albania over the years has held itself up to be the ultimate model of the unrelenting communist state—so much so that it hasn't tolerated any Russian leader this side of its hero, Josef Stalin.

After nearly two decades of

alliance with the Chinese Reds, who the Albanians considered far better Marxists than the Russian Reds, Albania has in so many words told the Chinese to go peddle their chopsticks elsewhere.

Albania seems to be the only nationality in the world

determined to plod along with its borders sealed against friendship with anyone. Considering the near total despotism which holds sway in the country of 2.5 million lost souls, there aren't that many knocking on the door for admittance anyway.

Harvey, You Are Wonderful

By PHYLLIS BATTELLE

NEW YORK — Harvey Sabinson, who knows as much about the Broadway theater as any man alive, says that it is breaking all-time box office records and will continue to do so.

"In the year ending last May 31st, there were nine million tickets sold to Broadway shows — a record. The year before that had broken previous records. Why? Because for the first time, we got into the credit card business; customers responded to that."

"And now, we have recently completed a study of the feasibility of total computerization of ticket sales. We found it feasible, and it's got to happen within the next 18 months. A customer will be able to go to a ticket sales office or a theater, any theater, and ask, 'What's the best seat I can get for the November 18 matinee of 'Annie?' — and a satellite box-office computer, connected to a main terminal computer, will instantly show him the best available locations for that performance."

The same computer system, says Sabinson, will offer producers and their publicists the kind of information they need to target their advertising most effectively. They'll be able to see in what weeks their shows are lagging, so they can pinpoint the timing of media advertising; and they'll know, for the first time, where their potential buyers are located. "I've found out recently, for example," smiles Harvey, "that there are pockets of ardent theater-goers in certain small towns in New Jersey. We never knew these things in the 30 years I was a Broadway press agent. If we'd known, we might have saved a lot of shows on the fringe."

Ultimately, he predicts, there will be toll-free numbers that customers can call to order show seats.

Harvey Sabinson, top press agent for more than 250 shows and friend of most of the great stars, thought he was retiring a few years ago. He bought a house in the Berkshire Mountains and began to write his memoirs. Then the League of New York Theaters and Producers (the trade association for the Broadway theater) lured him out of limbo to become Director of Special Projects. His projects included finding ways to obtain better police protection and sanitation in the theater area (mission being quickly accomplished), and ways of improving sales and image. "As a press agent, I was on the periphery of a hurricane," he says, "and now I'm in the eye of it. Either position is exciting."

He found time to finish his book, a funny and - for show buffs and celebrity fans - illuminating memoir of Broadway inside history titled "Darling, You Were Wonderful."

An author slaves for many months, sometimes years, to produce a book. Then, rather than being able to relax with fingers crossed, he must go out and sell himself and the publication in what is referred to, with excitement of loathing (depending on the extro - or introvertishness of the writer), a "book tour."

"You appear on every TV show, and in every newspaper office, that will have you," says Harvey. "In the end, in this age of media messages, it's

your subject matter and the exposure that decide whether you've got a best-seller. The reviews and the literary quality are relatively unimportant.

"The other night on a TV show, I had to follow another author named Alex Haley. Haley had come in with a little help from a friend - Margaret Mead. They had been talking about people's roots, of course; when it came my time to appear, I was sort of psychologically stuck in the past and so was the audience, so I couldn't think of anything to say except to wonder out loud how the great authors of the past ever managed to get their books sold — without making the tour and being seen on television."

"I said, 'How do you suppose Herman Melville's books ever got sold? Who bought them?'"

"Well, the answer was," Harvey smiles sheepishly, "that hardly anybody did buy Melville — until after he was dead. Maybe I'm super-sensitive. But that made me feel sad and guilty."

The incident recalled him to the days

Consumer Prices Up

WASHINGTON (AP) — Consumer prices rose in July by the smallest amount in seven months as lower costs for producing food began showing up at supermarket shelves, the government said today.

The July increase of fourtenths of 1 per cent in the Consumer Price Index was the lowest since a similar rise in December 1976, the Labor Department said.

Food prices last month were listed as up one-tenth of 1 per cent last month, on a seasonally adjusted basis. Increases of seven-tenths were recorded in May and eight-tenths in June.

In a second government report out today, the Commerce Department is issuing a revised estimate of the nation's Gross National Product. An earlier report said the GNP grew during the quarter at an annual rate of 6.4 per cent.

Despite the improvement in the inflation outlook of the Consumer Price Index, workers spendable earnings were reported down slightly in July. The average worker's purchasing power declined one-tenth of 1 per cent, mainly because of the decline in the average number of hours worked, the Labor Department said.

The consumer price report showed that other commodities, such as household goods and autos also rose one-tenth of one per cent in July, but these had not contributed to the recent inflationary spiral as much as food.

The administration is counting on slower increases in food prices to reduce the inflation rate from 10 per cent at the beginning of the year to 6 per cent at the year's end.

If averaged out over the entire year, the July increase would mean a 4.8 per cent rate of inflation, a considerable improvement over the first half. Consumer prices had increased six-tenths of one per cent in each of the last two months.

The slower rise in food prices was expected by economists after farmers began receiving less for their crops

of the 1950s, when a half dozen or more Broadway theaters were undergoing name changes. Billy Rose bought the National on 41st street, and named it after himself; The Fulton was changed to the Helen Hayes; the Mansfield became the Brooks Atkinson; the Hollywood, the Mark Hellinger; the Gaiety, the Lunt-Fontanne; the 54th Street, the George Abbot; the Coronet, the Eugene O'Neill.

These revisions inspired Sabinson to suggest to the Shuberts, who were planning to erect new marquees on their Majestic THAT THEY RENAME IT The Merrick, after his prolific producer-client, David Merrick.

"I pointed out that in the interests of economy, they could retain the M.E.I. and C from the old Majestic signs, purchase only two R's and a K, and voila - Merrick. Their answer was that the Shuberts had a newly instituted policy not to name theaters for the living."

"If Mr. Merrick's status should change radically," they said, 'advise us ...'"

than in the past three months.

Food bought in grocery stores declined one-tenth of one per cent, the first drop since last November. The main contributors were lower prices for beef, poultry, pork, fresh fruits, vegetables, sugar and ground coffee.

Food bought away from home, such as in restaurants, rose four-tenths of one per cent, less than half the average monthly increase in the first six months of the year.

The biggest contributor to inflation last month was in services, which rose eight-tenths of one per cent, about the same climb as for the past five months. Mortgage interest costs and charges for natural gas and electricity increased sharply. Medical care services and transportation services continued rising.

The prices of gasoline and motor oil dropped three-tenths of one per cent in July, about the same as in June, the department said. Prices rose two-tenths of one per cent for new cars, three-tenths for clothing and six-tenths for fuel oil and coal.

The over-all Consumer Price Index stood at 182.6, meaning that it cost \$182.60 to buy goods that \$100 would have purchased in 1967.

Jerry Lewis Nominated For Nobel Award

KENOSHA, Wis. (AP) — "I'm very proud," said comedian Jerry Lewis upon learning that he has been nominated for the Nobel Peace Prize by Rep. Les Aspin, D-Wis.

"Whether you win or lose, just to be in that company is magnificent," the entertainer said by telephone from Las Vegas, where he is appearing at the Hotel Sahara.

Aspin, who described Lewis as "a man for all seasons, all people and all times" whose name "has, in the hearts of millions, become synonymous with peace, love and brotherhood" said he nominated Lewis at the request of Kenneth Mills of Kenosha.

Mills, assistant director of instruction at Gateway Technical Institute, cited Lewis' work in raising over \$95 million in annual telethons over the past 11 years for muscular dystrophy.

Kobacker Stores Announce Sales

BRILLIANT, Ohio (AP) — Kobacker Stores, Inc., announced the company has achieved sales of \$14,118,000 for the three months ending July 30, 1977, as compared to \$12,610,000 for the same three months last year.

Arthur J. Kobacker, chairman, said that alongside the 12 per cent sales increase, net income for the same period rose from \$407,000 to \$440,000. Sales for the six months ending July 30 increased \$2.2 million, a 8.3 per cent increase over the previous year.

For a 12 month period ending last July, both sales and earnings show increases. Sales increased almost \$4.6 million to a level of \$57.5 million. Net income increased from \$2 million and \$3.08 a common share to \$2.34 million and \$3.77 per common share.

A Columbus man organized the first minor baseball league in 1877. —AP

Today In History

By THE ASSOCIATED PRESS

Today is Saturday, Aug. 20, the 232nd day of 1977. There are 133 days left in the year.

Today's highlight in history:

On this date in 1791, a Danish navigator, Vitus Bering, discovered Alaska.

On this date:

In 1776, George Washington eluded the British in Brooklyn, N.Y., and moved his army across the East River to Manhattan in dense fog.

In 1833, the 23rd American President, Benjamin Harrison, was born in North Bend, Ohio.

In 1914, during World War I, German forces occupied Brussels, Belgium.

In 1941, in World War II, the Soviets blew up their Dnieper Dam as German troops swept across the Ukraine.

In 1955, hundreds were killed in anti-French riots in Morocco and Algeria.

In 1961, the East Germans were busy building a wall along most of the 25-mile border between East and West Berlin.

Ten years ago: Sixty-eight people were arrested in New Haven, Conn., in a second night of disorders by blacks and Puerto Ricans. By the next night, 343 arrests had been made.

Five years ago: North Vietnam scored a major victory in fighting in South Vietnam, occupying the Que Son Valley and laying bare to attack a 20-mile stretch of Highway 1 from Da Nang southward.

One year ago: Forty-six people were murdered by extremists in Argentina.

Today's birthday: Former baseball manager Al Lopez is 69 years old.

Thought for today: When a thing is funny, search it for a hidden truth — George Bernard Shaw, British playwright, 1856-1950.

Editions Of The Past

35 YEARS AGO
August 1942

Nancy Miller, Sara Jane Rector, Joe Hedges, and Paul Brobst, were selected to attend 4-H Conservation Camp.

The black-out of city street lights ended when John C. Goeller, city council president, cast the tie breaking vote in favor of turning the lights back on.

Circleville City Police submitted an appeal for an increase in wages.

The Trinity Lutheran Church's softball team, led by pitcher Jim Wells, won the second round of championship games.

Rotarians were given a course in self defense by members of the Ohio Highway Patrol.

Fred Watts, high school science teacher, completed a course in aeronautics to qualify him to instruct students in preparing for air-flight training.

LAFF - A - DAY

"Hold it! Hold it! You just charged \$3.97 for him!"

Speaking Of Your Health

by Lester L. Coleman, M.D.

Twice, after a night of carousing and drinking hard liquor, I became nauseated and vomited blood. When I behaved myself again, this stopped. I still worry that I might possibly have trouble.

Mr. E. L., Mo.

Dear Mr. L.:

Nowhere in your letter did you indicate that when you became a "good boy" you went to your doctor to find out if the drinking binge was the only reason for your vomiting blood.

The condition you describe is technically known as "hematemesis." Since you have identified the possible relationship between hard drinking and this occurrence, the chances are that you are correct.

Yet there are many other reasons that could be responsible. Chronic liver disease and cirrhosis, especially in heavy drinkers, may be the cause. These conditions in the liver can, in a complex way, produce enlargement of the veins in the esophagus. Sometimes, one of the veins breaks and vomiting of blood occurs.

There are probably dozens of other reasons to account for your experience. Stop worrying and go to the doctor. In the meantime, you might

stop all that drinking.

Whenever I sneeze I lose my water. It's most embarrassing.

Mrs. D.A., Mich.

Dear Mrs. A.:

Bladder disturbances frequently occur in women who have given birth to a number of children. Stretching of the muscles and the ligaments that support the bladder and the uterus may be an aftermath.

Some times, the urinary bladder may bulge into the vagina and be responsible for frequency of urination, inadequacy of emptying the bladder, and losing urine after sneezing, laughing or coughing. Incidentally, this can also occur in women who have not had any children, but it probably happens less frequently to them.

When this condition becomes really bothersome, a vaginal plastic repair is performed. The operation is most gratifying because, within two days, these unpleasant symptoms usually disappear.

In some cases, a pessary is used, but this is not nearly as effective as that which results from any one of the modern, refined and excellent surgical procedures that are now available.

Simple examination may reveal whether there is any other cause for your discomfort.

Political Action Units Formed By Corporations

COLUMBUS, Ohio (AP) — Ohio Bell Telephone Co. is joining the growing list of corporations turning to political action committees as a means of beefing up their influence on the political scene.

Federal and state laws both prohibit corporate contributions to candidates, but leave the door open to committees as a channel for putting employee contributions where they can count the most. Labor unions use the same method for member contributions.

Ohio Bell President Charles E. Hugel sent letters earlier this week to about 500 management personnel—from district supervisory personnel on up—advising of the formation of two political action groups—one for federal elections and the other for state and local contests.

Other states in the Bell System, and their parent American Telephone and Telegraph Co., already have committees. So do several other big Ohio corporations, including Standard Oil of Ohio, TRW, Inc., Republic Steel Corp., Eaton Corp., the Chessie System, and others.

William A. Spratley, Ohio's new consumers' counsel, acknowledged that Ohio's biggest telephone company has a right to name committees, but said he doesn't think they are needed. He said the company already makes its presence "greatly felt" in Columbus, and is "adequately represented (by lobbyists) in the legislative process."

Spratley added: "The question is how much impact it will have."

The consumers' counsels office, created last year to represent utility customers in rate hike proceedings,

Safe Cracking Job Is 'Real Blast'

OSLO, Norway (AP) — They should have known it was going too well.

When three burglars broke into the office of the Ryfoss concrete company's office in Vang last weekend, they found the company safe right away.

They put together a small dynamite charge to blow it open, lit the fuse and confidently rushed into the next room.

The explosion which followed did not just open the vault, it brought down the walls of the factory. As it turned out, the safe was loaded with dynamite rather than cash.

According to the Oslo daily newspaper Verdens Gang, one burglar was severely injured and was brought to a hospital by his comrades. A second was arrested soon after for driving while intoxicated. The third was being sought.

said he has doubts about the accuracy of Ohio Bell's reports on political expenses, such as lobbying, "but I don't have access to their books."

The company reported spending about \$1,400 on lobbying activities in the first seven months of this year.

Hugel was out of state Thursday, but Tom Cotton, district manager, defended the move as "a right...a civic responsibility, and a workable method of supporting the democratic process." Ohio Bell employees, like any other company's, he said, should be able to support candidates "whose ideas they share."

Although the money will come from employees, corporate executives who will comprise the committee obviously have a chance to exert considerable influence on where the funds go.

24 Hour Ferrying To Begin

POINT PLEASANT, W.Va. (AP) — Around-the-clock ferry service between Point Pleasant and Kanawha, Ohio, was scheduled to begin late Friday.

Meanwhile, the state Department of Highways plans an investigation to determine what caused defects in welds on the Silver Memorial Bridge, according to Highways Commissioner Joseph S. Jones.

Bill Woodyard, a Point Pleasant attorney representing Three Cities Ferry Co., said the Coast Guard must inspect the boats Friday before service could begin.

The company will operate one 15-car barge and an eight-car barge for the 10-minute runs across the Ohio River.

Gov. Jay Rockefeller announced last week the state would foot the \$250,000 bill for the free ferry service for the estimated six-weeks it will take to fix the eight-year-old bridge.

The bridge was closed several weeks ago after inspectors discovered cracked welds in the superstructure.

Jones said the agency has not determined what caused the cracks, but admitted it may have been last winter's severe weather.

The commissioner said testing of the metals was a lengthy process and that now he is concerned with getting the span fixed and reopened.

A total of 5,732 tons of peat were mined in Ohio in 1970 with Cuyahoga, Stark and Richland the three largest counties for production.—AP

They'll Do It Every Time

A Page Of Opinion

Outcasts Of The Adriatic

Tiny Albania over the years has held itself up to be the ultimate model of the unrelenting communist state—so much so that it hasn't tolerated any Russian leader this side of its hero, Josef Stalin.

After nearly two decades of

alliance with the Chinese Reds, who the Albanians considered far better Marxists than the Russian Reds, Albania has in so many words told the Chinese to go peddle their chopsticks elsewhere.

Albania seems to be the only nationality in the world

determined to plod along with its borders sealed against friendship with anyone. Considering the near total despotism which holds sway in the country of 2.5 million lost souls, there aren't that many knocking on the door for admittance anyway.

Harvey, You Are Wonderful

By PHYLLIS BATTELLE

NEW YORK — Harvey Sabinson, who knows as much about the Broadway theater as any man alive, says that it is breaking all-time box office records and will continue to do so.

"In the year ending last May 31st, there were nine million tickets sold to Broadway shows - a record. The year before that had broken previous records. Why? Because for the first time, we got into the credit card business; customers responded to that."

"And now, we have recently completed a study of the feasibility of total computerization of ticket sales. We found it feasible, and it's got to happen within the next 18 months. A customer will be able to go to a ticket sales office or a theater, any theater, and ask, 'What's the best seat I can get for the November 18 matinee of 'Annie'?' — and a satellite box-office computer, connected to a main terminal computer, will instantly show him the best available locations for that performance."

The same computer system, says Sabinson, will offer producers and their publicists the kind of information they need to target their advertising most effectively. They'll be able to see in what weeks their shows are lagging, so they can pinpoint the timing of media advertising; and they'll know, for the first time, where their potential buyers are located. "I've found out recently, for example," smiles Harvey, "that there are pockets of ardent theater-goers in certain small towns in New Jersey. We never knew these things in the 30 years I was a Broadway press agent. If we'd known, we might have saved a lot of shows on the fringe."

Ultimately, he predicts, there will be toll-free numbers that customers can call to order show seats.

Harvey Sabinson, top press agent for more than 250 shows and friend of most of the great stars, thought he was retiring a few years ago. He bought a house in the Berkshire Mountains and began to write his memoirs. Then the League of New York Theaters and Producers (the trade association for the Broadway theater) lured him out of limbo to become Director of Special Projects. His projects included finding ways to obtain better police protection and sanitation in the theater area (mission being quickly accomplished), and ways of improving sales and image. "As a press agent, I was on the periphery of a hurricane," he says, "and now I'm in the eye of it. Either position is exciting."

He found time to finish his book, a funny and - for show buffs and celebrity fans - illuminating memoir of Broadway inside history titled "Darling, You Were Wonderful."

An author slaves for many months, sometimes years, to produce a book. Then, rather than being able to relax with fingers crossed, he must go out and sell himself and the publication in what is referred to, with excitement of loathing (depending on the extro - or introversion of the writer), a "book tour."

"You appear on every TV show, and in every newspaper office, that will have you," says Harvey. "In the end, in this age of media messages, it's

your subject matter and the exposure that decide whether you've got a best-seller. The reviews and the literary quality are relatively unimportant."

"The other night on a TV show, I had to follow another author named Alex Haley. Haley had come in with a little help from a friend - Margaret Mead. They had been talking about people's roots, of course; when it came my time to appear, I was sort of psychologically stuck in the past and so was the audience, so I couldn't think of anything to say except to wonder out loud how the great authors of the past ever managed to get their books sold — without making the tour and being seen on television."

"I said, 'How do you suppose Herman Melville's books ever got sold? Who bought them?'"

"Well, the answer was," Harvey smiles sheepishly, "that hardly anybody did buy Melville - until after he was dead. Maybe I'm super-sensitive. But that made me feel sad and guilty."

The incident recalled him to the days

Consumer Prices Up

WASHINGTON (AP) — Consumer prices rose in July by the smallest amount in seven months as lower costs for producing food began showing up at supermarket shelves, the government said today.

The July increase of four-tenths of 1 per cent in the Consumer Price Index was the lowest since a similar rise in December 1976, the Labor Department said.

Food prices last month were listed as up one-tenth of 1 per cent last month, on a seasonally adjusted basis. Increases of seven-tenths were recorded in May and eight-tenths in June.

In a second government report out today, the Commerce Department is issuing a revised estimate of the nation's Gross National Product. An earlier report said the GNP grew during the quarter at an annual rate of 6.4 per cent.

Despite the improvement in the inflation outlook of the Consumer Price Index, workers spendable earnings were reported down slightly in July. The average worker's purchasing power declined one-tenth of 1 per cent, mainly because of the decline in the average number of hours worked, the Labor Department said.

The consumer price report showed that other commodities, such as household goods and autos also rose one-tenth of one per cent in July, but these had not contributed to the recent inflationary spiral as much as food.

The administration is counting on slower increases in food prices to reduce the inflation rate from 10 per cent at the beginning of the year to 6 per cent at the year's end.

If averaged out over the entire year, the July increase would mean a 4.8 per cent rate of inflation, a considerable improvement over the first half. Consumer prices had increased six-tenths of one per cent in each of the last two months.

The slower rise in food prices was expected by economists after farmers began receiving less for their crops

than in the past three months.

Food bought in grocery stores declined one-tenth of one per cent, the first drop since last November. The main contributors were lower prices for beef, poultry, pork, fresh fruits, vegetables, sugar and ground coffee.

Food bought away from home, such as in restaurants, rose four-tenths of one per cent, less than half the average monthly increase in the first six months of the year.

The biggest contributor to inflation last month was in services, which rose eight-tenths of one per cent, about the same climb as for the past five months. Mortgage interest costs and charges for natural gas and electricity increased sharply. Medical care services and transportation services continued rising.

The prices of gasoline and motor oil dropped three-tenths of one per cent in July, about the same as in June, the department said. Prices rose two-tenths of one per cent for new cars, three-tenths for clothing and six-tenths for fuel oil and coal.

The over-all Consumer Price Index stood at 182.6, meaning that it cost \$182.60 to buy goods that \$100 would have purchased in 1967.

Jerry Lewis Nominated For Nobel Award

KENOSHA, Wis. (AP) — "I'm very proud," said comedian Jerry Lewis upon learning that he has been nominated for the Nobel Peace Prize by Rep. Les Aspin, D-Wis.

"Whether you win or lose, just to be in that company is magnificent," the entertainer said by telephone from Las Vegas, where he is appearing at the Hotel Sahara.

Aspin, who described Lewis as "a man for all seasons, all people and all times" whose name "has, in the hearts of millions, become synonymous with peace, love and brotherhood" said he nominated Lewis at the request of Kenneth Mills of Kenosha.

Mills, assistant director of instruction at Gateway Technical Institute, cited Lewis' work in raising over \$95 million in annual telethons over the past 11 years for muscular dystrophy.

Kobacker Stores Announce Sales

BRILLIANT, Ohio (AP) — Kobacker Stores, Inc., announced the company has achieved sales of \$14,118,000 for the three months ending July 30, 1977, as compared to \$12,610,000 for the same three months last year.

Arthur J. Kobacker, chairman, said that alongside the 12 per cent sales increase, net income for the same period rose from \$407,000 to \$440,000. Sales for the six months ending July 30 increased \$2.2 million, a 8.3 per cent increase over the previous year.

For a 12 month period ending last July, both sales and earnings show increases. Sales increased almost \$4.6 million to a level of \$57.5 million. Net income increased from \$2 million and \$3.08 a common share to \$2.34 million and \$3.77 per common share.

Dear Mrs. A.:

Bladder disturbances frequently occur in women who have given birth to a number of children. Stretching of the muscles and the ligaments that support the bladder and the uterus may be an aftermath.

Sometimes, the urinary bladder may bulge into the vagina and be responsible for frequency of urination, inadequacy of emptying the bladder, and losing urine after sneezing, laughing or coughing. Incidentally, this can also occur in women who have not had any children, but it probably happens less frequently to them.

When this condition becomes really bothersome, a vaginal plastic repair is performed. The operation is most gratifying because, within two days, these unpleasant symptoms usually disappear.

In some cases, a pessary is used, but this is not nearly as effective as that which results from any one of the modern, refined and excellent surgical procedures that are now available.

Simple examination may reveal whether there is any other cause for your discomfort.

Political Action Units Formed By Corporations

COLUMBUS, Ohio (AP) — Ohio Bell Telephone Co. is joining the growing list of corporations turning to political action committees as a means of beefing up their influence on the political scene.

Federal and state laws both prohibit corporate contributions to candidates, but leave the door open to committees as a channel for putting employee contributions where they can count the most. Labor unions use the same method for member contributions.

Ohio Bell President Charles E. Hugel sent letters earlier this week to about 500 management personnel— from district supervisory personnel on up— advising of the formation of two political action groups—one for federal elections and the other for state and local contests.

Other states in the Bell System, and their parent American Telephone and Telegraph Co., already have committees. So do several other big Ohio corporations, including Standard Oil of Ohio, TRW, Inc., Republic Steel Corp., Eaton Corp., the Chessie System, and others.

William A. Spratley, Ohio's new consumers' counsel, acknowledged that Ohio's biggest telephone company has a right to name committees, but said he doesn't think they are needed. He said the company already makes its presence "greatly felt" in Columbus, and is "adequately represented (by lobbyists) in the legislative process."

Spratley added: "The question is how much impact it will have."

The consumers' counsels office, created last year to represent utility customers in rate hike proceedings,

Safe Cracking Job Is 'Real Blast'

OSLO, Norway (AP) — They should have known it was going too well.

When three burglars broke into the office of the Ryfoss concrete company's office in Vang last weekend, they found the company safe right away.

They put together a small dynamite charge to blow it open, lit the fuse and confidently rushed into the next room.

The explosion which followed did not just open the vault, it brought down the walls of the factory. As it turned out, the safe was loaded with dynamite rather than cash.

According to the Oslo daily newspaper Verdens Gang, one burglar was severely injured and was brought to a hospital by his comrades. A second was arrested soon after for driving while intoxicated. The third was being sought.

said he has doubts about the accuracy of Ohio Bell's reports on political expenses, such as lobbying, "but I don't have access to their books."

The company reported spending about \$1,400 on lobbying activities in the first seven months of this year.

Hugel was out of state Thursday, but Tom Cotton, district manager, defended the move as "a right...a civic responsibility, and a workable method of supporting the democratic process." Ohio Bell employees, like any other company's, he said, should be able to support candidates "whose ideas they share."

Although the money will come from employees, corporate executives who will comprise the committee obviously have a chance to exert considerable influence on where the funds go.

24 Hour Ferrying To Begin

POINT PLEASANT, W.Va. (AP) — Around-the-clock ferry service between Point Pleasant and Kanawha, Ohio, was scheduled to begin late Friday.

Meanwhile, the state Department of Highways plans an investigation to determine what caused defects in welds on the Silver Memorial Bridge, according to Highways Commissioner Joseph S. Jones.

Bill Woodyard, a Point Pleasant attorney representing Three Cities Ferry Co., said the Coast Guard must inspect the boats Friday before service could begin.

The company will operate one 15-car barge and an eight-car barge for the 10-minute runs across the Ohio River.

Gov. Jay Rockefeller announced last week the state would foot the \$250,000 bill for the free ferry service for the estimated six-weeks it will take to fix the eight-year-old bridge.

The bridge was closed several weeks ago after inspectors discovered cracked welds in the superstructure.

Jones said the agency has not determined what caused the cracks, but admitted it may have been last winter's severe weather.

The commissioner said testing of the metals was a lengthy process and that now he is concerned with getting the span fixed and reopened.

A total of 5,732 tons of peat were mined in Ohio in 1970 with Cuyahoga, Stark and Richland the three largest counties for production. —AP

They'll Do It Every Time

Dear Abby:

By Abigail Van Buren

Live-In Lover Not Invited By 'In-Laws'

DEAR ABBY: My boyfriend's parents are celebrating their golden wedding anniversary this month, and have planned a big bash at a very fancy country club.

They say it's only family and close friends, and you guessed it, I'm not invited! I have lived with their son for three years, and if that doesn't make me "family", I don't know what does.

I could marry him if I wanted to, but if I did I would lose the alimony I'm getting from my last husband, and also the child support from my kids' father. (My second husband.) I also think marriage is old-fashioned today.

Everybody in town, including my boyfriend's parents, know that we have been living together, so why shouldn't my kids and I be invited.

I hear that my boyfriend's ex-wife and her kids will be there. I ask you, is that fair? I think it's rotten for his folks to treat me this way. Am I wrong?

LEFT OUT

DEAR LEFT: Yes. On two counts: (1) Marriage is NOT 'old fashioned'—it's as popular today as it ever was. (2) Your boyfriend's parents are free to invite (and exclude) whomever they wish. It's their party.

DEAR ABBY: I witnessed an incident at the beach last Sunday that ruined my day. A young mother was trying to teach her daughter, who appeared to be about three, to swim. She held the child's head under the water and yelled, "If you don't learn to enjoy the water, you'll never learn to swim!"

Meanwhile the poor child was hysterical as she clung to her mother for dear life, crying and begging her to stop. The mother tore the child's little hands loose, and pushed her head under the water time and time again, insisting she had to learn to "like" the water. The child came up repeatedly, gasping, choking and pleading, but the mother showed her no mercy.

I wanted to say something to the mother, but I was afraid she'd tell me to mind my own business. Later I heard her tell her friend that a swimming teacher had told her that this was the only way to teach a child how to swim.

I had a similar experience when I was young. I'm now 32, I never learned to swim, and I'm still afraid of the water.

CONCERNED IN GA.

DEAR CONCERNED: Whether or not the mother knew it, she was abusing that child, and child abuse is everybody's business. You should have told that mother what you told me.

DEAR ABBY: Are there any foods or beverages which will help a person sexually? I have heard there are several.

WANTS TO KNOW

DEAR WANTS: I know of none. But if you believe that a certain food or drink will "help you" sexually, by all means try. It probably will.

Yellow Jackets Are Prevalent

By GEORGE HAMRICK
County Extension Agent,
Agriculture

Yellow jackets — small critters that to many people resemble the honeybees — have increased in numbers by now and are becoming more noticeable by homeowners. Some build their nest in the ground while some species like to build in the walls of houses, entering through cracks or tiny holes.

About this time of year, we get numerous calls about honeybee swarms. Well, honeybee swarms are very unlikely this time of year, but a buildup of yellow jackets can make the unsuspecting person think he has a swarm of bees.

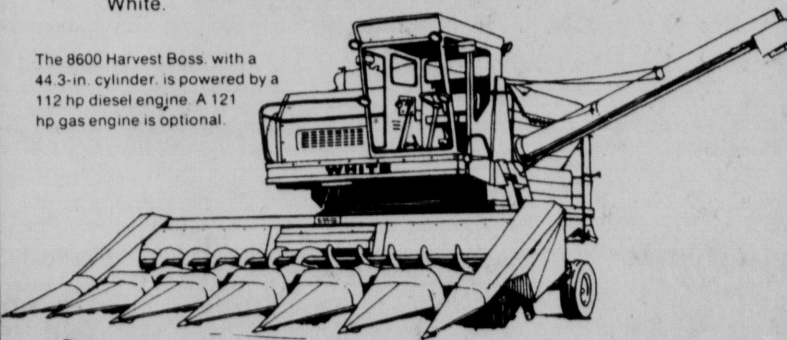

Of course, foraging habits of honeybees and yellow jackets are different. Honeybees go after nectar and pollen of flowers, while yellow jackets catch and feed on other insects.

It is not an easy thing to get rid of yellow jackets that have moved into the wall of your house. If they are not too close to the door or are not stinging anyone, best just leave them alone. On the other hand, if they are near the door in the soil or wall, find where the critters are entering and thoroughly soak their nest with an insecticide such as diazinon. To do this, mix a couple of tablespoonfuls in a gallon of water. Use your compressed air sprayer and shoot a stream of the solution in the entrance hole until the nest is soaked. The only problem is that once the yellow jackets enter the hole in the wall, they may be going up, down or to either side, so it is difficult to know just where the nest is located. In the soil, you can probe around until you find the nest. Saturate the outside around the entrance, too. This may help if you miss inside.

White® 8600 Harvest Boss™ combine ... the corn and soybean saver.

After you've nursed your corn and bean crop through spring planting and summer weather ... it just makes good sense to make sure more of what you've grown gets harvested. White's big Harvest Bosses feature coordinated capacity plus adjustable on-row harvesting for corn and a flexible floating cutter bar for beans. Three things that can put you money ahead this fall. See us today for your corn and soybean saver from White.

The 8600 Harvest Boss, with a 44.3-in. cylinder, is powered by a 112 hp diesel engine. A 121 hp gas engine is optional.

Tough Policy Against Auto Emissions

COVINGTON, Ky. (AP) — An air pollution watchdog is drafting a get tough policy against auto emissions for Louisville and northern Kentucky counties outside Cincinnati.

Legislation for mandatory auto emissions tests is being considered to combat worsening air quality in four Kentucky counties, according to John Smither, director of the Kentucky Division of Air Pollution Control.

Smither, speaking from his office in Frankfort, said a priority has been designated to Jefferson County (Louisville) and the northern counties of Campbell, Boone and Kenton which lie across the Ohio River from Cincinnati.

Cincinnati adopted mandatory testing almost two years ago. But the action left citizens angered because the nearby Kentucky cities did not have to join the upgrading effort.

Smither said northern Kentucky's air was worse than national standards for 131 hours between July 1, 1976 and June 30, 1976.

He noted that six air pollution alerts have been called already in 1977 in the three northern counties. Alerts warn persons with respiratory problems to remain indoors.

"Alerts up there are related to oxidants which for the most part are the product of motor vehicles," he said.

Smither said legislation will be submitted to the General Assembly in January if the state administration and his superiors in the Department of Natural Resources give approval.

Water Facility To Be Announced

HUNTINGTON, W.Va. (AP) — Willow Island Locks and Dam, the newest inland waterway navigation facility on the upper Ohio River, will be dedicated in a public ceremony Sept. 10.

The \$76 million federally financed project is located 10 miles upstream from Marietta, Ohio. The project was designed and constructed under supervision of the U.S. Army Corps of Engineers' Huntington District.

The Saturday ceremony will take place at 4 p.m., at the lock site of Ohio 7. It is being sponsored by the Ohio River Modernization Program.

Willow Island has two parallel locks, which will serve to transport boats of all types up or down stream 24 hours a day.

The dam stretches 1,128 feet from the locks on the Ohio side of the river to the West Virginia bank. Its eight gates maintain a navigable depth of at least nine feet between Willow Island and Hannibal Locks, 35 miles upstream.

DEAR LEFT: Yes. On two counts: (1) Marriage is NOT 'old fashioned'. It's as popular today as it ever was. (2) Your boyfriend's parents are free to invite (and exclude) whomever they wish. It's their party.

News Of Interest To Women

6 The Circleville Herald, Saturday August 20, 1977

How To Select A Ripe Watermelon

While many varieties of watermelons are grown throughout the United States, the largest commercial shipments are confined to a very few varieties which have been found most suitable for volume production, shipment and sale.

The essential quality in watermelons is maturity. It is often extremely difficult for even an experienced buyer to determine the stage of ripeness of a watermelon with an opportunity to observe interior color and texture. Because few consumers can properly keep or utilize a whole watermelon, and to best allow consumers to judge their purchases, most markets usually display cut melons in half or quarters.

A mature melon will have good red color and the color of the seeds will usually be dark brown or black. Light colored flesh and white seeds indicate immaturity and a lack of flavor and sweetness. Dry mealy flesh, or watery, stringy flesh showing darkening and softening of tissues next to seeds, indicate overmaturity or excessive elapsed time after harvesting. In either case desirable crispness and flavor will be lacking.

A hard white streak located lengthwise through the flesh indicates a condition known as 'white heart' which makes the edible quality very undesirable.

Logan Trails Girl Scouts Service Unit Will Meet

The Logan Trails Service Unit has scheduled their first meeting from 9:30-11:30 a.m., September 8, at the Trinity Lutheran Parish House.

All troop leaders and their assistants are expected to attend, as are troop committee members and any interested parents. Registration materials will be distributed at this time.

The main emphasis of this meeting will be a basic orientation on the new program, "Worlds To Explore." Although the materials now out are for Brownies and Juniors, they serve as a framework for the older age levels.

Each leader should bring her copies of the new handbook and the Leader's Guide, both of which are available through equipment agencies.

In support of the Council's goals to ensure that girls have good programs that stimulate a variety of interests and meets their needs, all leaders must participate in the Leadership Training this year.

In addition of the September 8 meeting, leaders are to attend Leadership I and II at the First United Methodist Church, Lancaster from 9:30 a.m.-2 p.m., September 13 and 15.

A session on the new program will be held from 7-9 p.m., September 22 at the Trinity Lutheran Church Parish House.

Shower Honors Bride-Elect

Miss Christine De Long, bride elect of Mr. Daniel Patrick, was honored with a kitchen shower at 7 p.m., August 12, at her residence, with Mrs. Cheryl Walls, Mrs. Rita Jones and Miss Kim Brown serving as hostesses.

Following the opening of gifts, games were played and refreshments served.

Mrs. Maxwell Hosts Salem UM Women

The Salem United Methodist Women recently held their monthly meeting in the home of Mrs. Mildred Maxwell, with Mrs. Vera Miller as co-hostess.

Mrs. Ira Barr led devotions. During the business session plans were made concerning two farm sales in September. The district meeting will be held September 19.

Games were conducted by Miss Betty Boldoser with prizes being awarded to Mrs. Darl McAfee, Mrs. Mildred Maxwell and Mrs. Donald Minor.

Following the meeting refreshments were served by the hostess.

Calendar

MONDAY
Pickaway County Women's Republican Club, 12 noon, at the Pickaway Arms.

American Legion Auxiliary, carry-in picnic, 6:30 p.m., in the home of Mary Stephens, 22662 Ringgold Southern Road.

TUESDAY
Circleville Jaycee Wives, 8 p.m., in the home of Debbi Boyer, 367 Tarlton Road.

SAVINGS INSURED

New Extension Club Formed

The new Extension Homemakers Club, The County Liners, will meet August 23, at 7 p.m., at the home of Janet Ratliff, 11206 Main Street.

The lesson will be "Outdoor Cookery" and will include a demonstration on roasting a turkey on an outdoor grill.

Anyone interested in visiting the new club is most welcome to attend. For further information, call Sarah Weaver, at 474-6549.

Rittinger-Jenings Annual Reunion

The 37th annual Rittinger-Jennings reunion was held Sunday at Springbank Church with 37 members present.

After a basket lunch, a business meeting was conducted by Lloyd Reutinger, president. It was agreed to hold the 1978 reunion at the same location, the second Sunday of August.

Prizes were awarded to Ralph Fink, oldest man; Effie Fink, oldest woman; Mike Reutinger, youngest boy; Tonya Reutinger, youngest girl; Mr. and Mrs. Gary A. Rittinger, most recent married; Linda Hoch, a guest of Melynn Rittinger, farthest traveler; and Robert E. Rittinger and Gary A. Rittinger, having the largest families.

Officers elected for the coming year are Chester Kempton, president; Gary Rittinger, vice president; and Sharon Rittinger, secretary-treasurer.

'Board-A-Match' Bridge Game Held

The Circleville Duplicate Bridge Club held a "Board-A-Match" game on August 17 at the Pickaway County YMCA.

Nine teams of four players competed in the event directed by Dieter Droste.

In a tie for first place was the team of Marge and Earl Sharff, Ellen Brantley and Dieter Droste with the team of Jean Dean, Ruth Carson, Virginia McKinley and Meredith Stoerck.

Third place winners were Jean Baird, Maxine Hoagland, Betty Story, and Lois Crawford.

Fourth place went to Dave and Audrey Johnson, Jate Harden and Evelyn Weiler.

Friday Bridge Winners

Winners of the three table Howell game held on August 19 were: 1. Jean Dean and Virginia McKinley; 2. Fran and Jennings Turner.

September 2 will be the next scheduled afternoon session beginning at 12:30 p.m., at the YMCA.

Moderate Rise In Prices Seen As 'Good News'

WASHINGTON (AP) — A White House spokesman says figures showing a moderate rise in consumer prices in July are good news, but have limited meaning in the long-term battle with inflation.

The Labor Department said Friday that overall consumer prices rose by four-tenths of 1 per cent in July. Grocery prices dropped by one-tenth of 1 per cent, the first decline since November.

"The moderate July increase in overall consumer prices does not mean we can relax about the inflationary problem," said Press Secretary Jody Powell. "The underlying rate of inflation did not moderate in July and is still rising at a rate above 6 per cent."

The underlying rate excludes food and fuel prices.

The July increase in consumer prices would amount to a 4.8 per cent annual inflation rate. In the first six months of the year, prices went up at an annual rate of 7.2 per cent.

The price index hit 182.6 in July, meaning it would take \$182.60 to buy what \$100 would have bought in 1967.

The grocery price decline was due mainly to lower prices for beef, poultry, pork, fresh vegetables, sugar and ground coffee. The decrease was expected because of lower farm prices posted during the past three months.

Ham, Bacon Bring \$55 At Fair

COLUMBUS, Ohio (AP) — Tom and Bob Yeazel of Eaton were paid \$55 on Friday for a ham and a side of bacon.

Their pork cuts were among 27 entries in the annual Invitational Ham & Bacon Show at the Ohio State Fair.

Judges were wandering down the row in the refrigerated showroom checking for color, shape, fat to lean ratios just before the winner was announced.

In a nearby room, Professor H.M. Barnes, Ohio State University extension specialist in animal science, was tabulating the results.

"A good ham, firm and lean, usually means the bacon won't be quite as good," Barnes, chairman of the show, said.

J.N. Hahn of the J.H. Routh Packing Co. and Mrs. Charlene Foster of the Ohio Pork council had heated an electric skillet and were checking the bacon for "barnyard odor." There was none.

When the judge's worksheets were tallied, the Yeazels, brothers who are partners in the Yeazel Duroc Farm, had accumulated 1,331 points out of a possible 1,400.

Robert and Dave Owens, father and son owners of the Owens Duroc Farm in Jeffersonville took second with 1,317. Wayne Brown Jr. of Groveport was third with 1,300.

Barnes explained invitations go to winners of the previous year's Performance Tested Barrow Contest and to winners of the Ham & Bacon show of the year before.

"These guys get a big kick out of talking about how to tell which live pig will show well in this contest."

"They also know how good it is to have that display window full of things to make mouths water. It's good for the pork business," Barnes said.

After the bacon was tested for aroma it was tasting time. Superb. Not like you normally find at the grocery.

"After all, this is the best or it wouldn't be in the show," Barnes said. "You see a better trim. There's better craftsmanship at the packing house."

The top 25 hams and bellies will be on display in the swine barn through the end of the fair. Unfortunately, they're not for sale. The farmer gets them back along with prize money, ranging from \$55 for first place to \$5 for 25th.

After the bacon was tested for aroma it was tasting time. Superb. Not like you normally find at the grocery.

"After all, this is the best or it wouldn't be in the show," Barnes said. "You see a better trim. There's better craftsmanship at the packing house."

The top 25 hams and bellies will be on display in the swine barn through the end of the fair. Unfortunately, they're not for sale. The farmer gets them back along with prize money, ranging from \$55 for first place to \$5 for 25th.

When the judge's worksheets were tallied, the Yeazels, brothers who are partners in the Yeazel Duroc Farm, had accumulated 1,331 points out of a possible 1,400.

Robert and Dave Owens, father and son owners of the Owens Duroc Farm in Jeffersonville took second with 1,317. Wayne Brown Jr. of Groveport was third with 1,300.

Barnes explained invitations go to winners of the previous year's Performance Tested Barrow Contest and to winners of the Ham & Bacon show of the year before.

"These guys get a big kick out of talking about how to tell which live pig will show well in this contest."

"They also know how good it is to have that display window full of things to make mouths water. It's good for the pork business," Barnes said.

COLUMBUS, Ohio (AP) — Tom and Bob Yeazel of Eaton were paid \$55 on Friday for a ham and a side of bacon.

Their pork cuts were among 27 entries in the annual Invitational Ham & Bacon Show at the Ohio State Fair.

Judges were wandering down the row in the refrigerated showroom checking for color, shape, fat to lean ratios just before the winner was announced.

In a nearby room, Professor H.M. Barnes, Ohio State University extension specialist in animal science, was tabulating the results.

"A good ham, firm and lean, usually means the bacon won't be quite as good," Barnes, chairman of the show, said.

J.N. Hahn of the J.H. Routh Packing Co. and Mrs. Charlene Foster of the Ohio Pork council had heated an electric skillet and were checking the bacon for "barnyard odor." There was none.

When the judge's worksheets were tallied, the Yeazels, brothers who are partners in the Yeazel Duroc Farm, had accumulated 1,331 points out of a possible 1,400.

How To Select A Ripe Watermelon

While many varieties of watermelons are grown throughout the United States, the largest commercial shipments are confined to a very few varieties which have been found most suitable for volume production, shipment and sale.

The essential quality in watermelons is maturity. It is often extremely difficult for even an experienced buyer to determine the stage of ripeness of a watermelon with an opportunity to observe interior color and texture. Because few consumers can properly keep or utilize a whole watermelon, and to best allow consumers to judge their purchases, most markets usually display cut melons in half or quarters.

A mature melon will have good red color and the color of the seeds will usually be dark brown or black. Light colored flesh and white seeds indicate immaturity and a lack of flavor and sweetness. Dry mealy flesh, or watery, stringy flesh showing darkening and softening of tissues next to seeds, indicate overmaturity or excessive elapsed time after harvesting. In either case desirable crispness and flavor will be lacking.

A hard white streak located lengthwise through the flesh indicates a condition known as 'white heart' which makes the edible quality very undesirable.

Logan Trails Girl Scouts Service Unit Will Meet

The Logan Trails Service Unit has scheduled their first meeting from 9:30-11:30 a.m., September 8, at the Trinity Lutheran Parish House.

All troop leaders and their assistants are expected to attend, as are troop committee members and any interested parents. Registration materials will be distributed at this time.

The main emphasis of this meeting will be a basic orientation on the new program, "Worlds To Explore." Although the materials now out are for Brownies and Juniors, they serve as a framework for the older age levels.

Each leader should bring her copies of the new handbook and the Leader's Guide, both of which are available through equipment agencies.

In support of the Councils goals to ensure that girls have good programs that stimulate a variety of interests and meets their needs, all leaders must participate in the Leadership Training this year.

In addition of the September 8 meeting, leaders are to attend Leadership I and II at the First United Methodist Church, Lancaster from 9:30 a.m.-2 p.m., September 13 and 15.

A session on the new program will be held from 7-9 p.m., September 22 at the Trinity Lutheran Church Parish House.

Shower Honors Bride-Elect

Miss Christine De Long, bride elect of Mr. Daniel Patrick, was honored with a kitchen shower at 7 p.m., August 12, at her residence, with Mrs. Cheryl Walls, Mrs. Rita Jones and Miss Kim Brown serving as hostesses.

Following the opening of gifts, games were played and refreshments served.

Mrs. Maxwell Hosts Salem UM Women

The Salem United Methodist Women recently held their monthly meeting in the home of Mrs. Mildred Maxwell, with Mrs. Vera Miller as co-hostess.

Mrs. Ira Barr led devotions. During the business session plans were made concerning two farm sales in September. The district meeting will be held September 19.

Games were conducted by Miss Betty Boldoser with prizes being awarded to Mrs. Darl McAfee, Mrs. Mildred Maxwell and Mrs. Donald Minor.

Following the meeting refreshments were served by the hostess.

New Extension Club Formed

The new Extension Homemakers Club, The County Liners, will meet August 23, at 7 p.m., at the home of Janet Ratliff, 11206 Main Street.

The lesson will be "Outdoor Cookery" and will include a demonstration on roasting a turkey on an outdoor grill.

Anyone interested in visiting the new club is most welcome to attend. For further information, call Sarah Weaver, at 474-6549.

Rittinger-Jenings Annual Reunion

The 37th annual Rittinger-Jennings reunion was held Sunday at Springbank Church with 37 members present.

After a basket lunch, a business meeting was conducted by Lloyd Reutinger, president. It was agreed to hold the 1978 reunion at the same location, the second Sunday of August.

Prizes were awarded to Ralph Fink, oldest man; Effie Fink, oldest woman; Mike Reutinger, youngest boy; Tonya Reutinger, youngest girl; Mr. and Mrs. Gary A. Rittinger, most recent married; Linda Hoch, a guest of Melynn Rittinger, farthest traveler; and Robert E. Rittinger and Gary A. Rittinger, having the largest families.

Officers elected for the coming year are Chester Kempton, president; Gary Rittinger, vice president; and Sharon Rittinger, secretary-treasurer.

'Board-A-Match' Bridge Game Held

The Circleville Duplicate Bridge Club held a "Board-A-Match" game on August 17 at the Pickaway County YMCA.

Nine teams of four players competed in the event directed by Dieter Droste.

In a tie for first place was the team of Marge and Earl Sharff, Ellen Brantley and Dieter Droste with the team of Jean Dean, Ruth Carson, Virginia McKinley and Meredith Stoerer.

Third place winners were Jean Baird, Maxine Hoagland, Betty Story, and Lois Crawford.

Fourth place went to Dave and Audrey Johnson, Jate Harden and Evelyn Weiler.

Friday Bridge Winners

Winners of the three table Howell game held on August 19 were: 1. Jean Dean and Virginia McKinley; 2. Fran and Jennings Turner.

September 2 will be the next scheduled afternoon session beginning at 12:30 p.m., at the YMCA.

Moderate Rise In Prices Seen As 'Good News'

WASHINGTON (AP) — A White House spokesman says figures showing a moderate rise in consumer prices in July are good news, but have limited meaning in the long-term battle with inflation.

The Labor Department said Friday that overall consumer prices rose by four-tenths of 1 per cent in July. Grocery prices dropped by one-tenth of 1 per cent, the first decline since November.

"The moderate July increase in overall consumer prices does not mean we can relax about the inflationary problem," said Press Secretary Jody Powell. "The underlying rate of inflation did not moderate in July and is still rising at a rate above 6 per cent."

The underlying rate excludes food and fuel prices.

The July increase in consumer prices would amount to a 4.8 per cent annual inflation rate. In the first six months of the year, prices went up at an annual rate of 7.2 per cent.

The price index hit 182.6 in July, meaning it would take \$182.60 to buy what \$100 would have bought in 1967.

The grocery price decline was due mainly to lower prices for beef, poultry, pork, fresh vegetables, sugar and ground coffee. The decrease was expected because of lower farm prices posted during the past three months.

Ham, Bacon Bring \$55 At Fair

COLUMBUS, Ohio (AP) — Tom and Bob Yeazel of Eaton were paid \$55 on Friday for a ham and a side of bacon.

Their pork cuts were among 27 entries in the annual Invitational Ham & Bacon Show at the Ohio State Fair.

Judges were wandering down the row in the refrigerated showroom checking for color, shape, fat to lean ratios just before the winner was announced.

Parade Of Hills Vs. Ohio State Fair

The Circleville Herald, Saturday August 20, 1977

7

NELSONVILLE, Ohio (AP) — Old time fiddlers, pretty girls, parades, kiddie shows and a carnival are among festivities at the Parade of the Hills at this southeast Ohio community next week.

It will be competing with Ohio's version of "The Greatest Show on Earth" — the Ohio State Fair — which will be underway in Columbus.

These are but two of the entertainment programs planned around

Ohio during the coming week.

It's the 28th year for the Parade of The Hills in this former coal mining capital.

The program opens Monday with a baseball game and ends Saturday night with the crowning of a queen and a countrywestern music group entertaining an expected 20,000 visitors.

The old-time fiddlers contest is the only official statewide competition for the stringmen. Contestants will offer a

variety of fiddling styles but an Appalachian style is expected to dominate. Other styles include bluegrass, western and Canadian styles.

Other events and their dates scheduled around Ohio in the coming week include:

Aug. 21 — The Carnation Festival concludes at Alliance.

Aug. 21 — Canal Days Festival ends at Roscoe Village in Coshocton.

Aug. 21 — Pioneer Power Show ends at Dover.

Aug. 21 — Last day for Czech Days at Dillonvale.

Aug. 21 — Last day for Jefferson County Fair at Smithfield.

Aug. 21-27 — Ohio State Fair continues at Columbus.

Aug. 21 — Lorin Maazel, Matthias Bamert and Kenneth Jean conduct "A Mainly Mozart Marathon of Music" at Blossom Music Center near Akron and Cleveland.

Aug. 21-25 — Last five days of Allen County Fair at Lima.

Aug. 21-26 — Darke County Fair at Greenville, and Defiance County Fair at Hicksville.

Aug. 21 — Flower Show at Zoar historic village.

AFS STUDENT ARRIVES — German Escher, from Brig, Switzerland, arrived in Circleville Tuesday to spend a year with the J.M. Yunker family, 536 N. Court St., and to attend Circleville High School. German (center) is pictured with his host father, Michael, and one of his host sisters, Ellen. German and Circleville's returning AFS student, Lisa Leahy, will be welcomed at a picnic at Hargus Lake (near the flagpole) Sunday at 5 p.m. Bring a covered dish.

Wheat Growers Economics At Depression Years Level

WASHINGTON (AP) — According to Agriculture Department calculations, the economic well-being of wheat growers generally has fallen to the levels of 1933, when the federal government began extensive programs of adjusting the farm economy.

The prices they are getting this summer are not the worst but are getting close to a percentage of the calculated parity price.

In mid-July, the combined average for all types of wheat produced was \$2 a bushel. That's 40 per cent of the parity price of \$5.05.

As a percentage of parity, the average wheat prices for one season hit bottom in 1931, with 36 per cent.

When grain stocks in other countries were depleted in 1973 and U.S. exports began to boom, the peak of 118 per cent was reached.

market. Upcoming increases in government payment levels will help growers' incomes but not raise the effective market price beyond \$2.25 a bushel, the USDA loan rate.

The Economic Research Service says that "seasonal price rises of 5 to 10 per cent have occurred in earlier years when prices were near the loan rate."

That's a dime or two a bushel next spring, not enough to exceed the loan rate. Moreover, dwindling storage space is forcing many farmers to sell into the glutted market rather than wait.

Some tentative hope was raised Thursday with new estimates of world grain trade, production and stocks for the current season. The Foreign Agricultural Service trimmed its forecast of the total wheat and coarse grains carryover stocks next June 30 from a potential record of 195.8 million metric tons to 186.2 million.

But that would still be the largest stockpile since 1970, more than 10 per cent above this summer's price-smothering carryover.

The estimate also is tentative, because it was based on lower projections for Russian spring-wheat and U.S. corn harvests that may be raised again because of recent better weather.

"It will take a kicker on the demand side — more specifically from exports — to push prices up more than seasonally," the Aug. 1 ERS analysis states. "Such a push could come from a shortfall in the world's wheat crop, the world's feedgrain crop or the world rice crop. However, at this time all three crops look good."

The parity price is not a direct measure of farm income, which chief USDA economist Howard Hjort says will fall to 1971 levels this year.

But it does reflect at a given time the price a farmer should get for a bushel of wheat to achieve the financial harmony the law says existed in the 1910-1914 period.

Many figures are cranked into the calculation, which the department is required to make, each month. Most are averages that a farmer with a mortgage and a typical family's needs may have some difficulty identifying with.

The prices the farmer pays for the articles and services that he must buy are included, along with the general level of all farm prices, interest rates, wage rates, taxes and government income supplements and price supports.

Few of those items go down as does the price of a commodity after big harvests.

Agriculture Secretary Bob Bergland says, "I see no hope for wheat-price improvement this year" in the cash

Red Cross Plans Volunteer Orientation

Orientation and training for American Red Cross Volunteers will be held in the Guild Room at Berger Hospital on Wednesday, from 9 a.m. to 12:30 p.m.

Youth volunteers are needed to work at Berger Hospital on the floor after school and on weekends.

There is also need for adult volunteers to do filing in the Lab, any time between 7 a.m. and 11 p.m. There are openings for volunteers in the Emergency room on weekends and afternoons.

For further information, please call the Red Cross: 474-5736.

In addition to protecting the life of the president, the Secret Service is responsible for enforcing laws regarding coins, obligations and securities of the United States and foreign governments.

Parade Of Hills Vs. Ohio State Fair

The Circleville Herald, Saturday August 20, 1977

7

NELSONVILLE, Ohio (AP) — Old time fiddlers, pretty girls, parades, kiddie shows and a carnival are among festivities at the Parade of The Hills at this southeast Ohio community next week.

It will be competing with Ohio's version of "The Greatest Show on Earth" — the Ohio State Fair — which will be underway in Columbus.

These are but two of the entertainment programs planned around

Ohio during the coming week.

It's the 28th year for the Parade of The Hills in this former coal mining capital.

The program opens Monday with a baseball game and ends Saturday night with the crowning of a queen and a countrywestern music group entertaining an expected 20,000 visitors.

The old-time fiddlers contest is they only official statewide competition for the stringmen. Contestants will offer a

variety of fiddling styles but an Appalachian style is expected to dominate. Other styles include bluegrass, western and Canadian styles.

Other events and their dates scheduled around Ohio in the coming week include:

Aug. 21 — The Carnation Festival concludes at Alliance.

Aug. 21 — Canal Days Festival ends at Roscoe Village in Coshocton.

Aug. 21 — Pioneer Power Show ends at Dover.

Aug. 21 — Last day for Czech Days at Dillonvale.

Aug. 21 — Last day for Jefferson County Fair at Smithfield.

Aug. 21-27 — Ohio State Fair continues at Columbus.

Aug. 21 — Lorin Maazel, Matthias Bamert and Kenneth Jean conduct "A Mainly Mozart Marathon of Music" at Blossom Music Center near Akron and Cleveland.

Aug. 21-25 — Last five days of Allen County Fair at Lima.

Aug. 21-26 — Darke County Fair at Greenville, and Defiance County Fair at Hicksville.

Aug. 21 — Flower Show at Zoar historic village.

MORE

add 948 parade of adv weekend aug. 21

Aug. 21-24 — Last days for Logan County fair at Bellefontaine.

Aug. 22 — Bread, the rejuvenated contemporary musical group first formed in 1969 and reborn in 1976, performs at Blossom Music Center.

Aug. 23-27 — Monroe County Fair runs five days at Woodfield.

Aug. 23-28 — Lake County Fair at Painesville; Lorain County Fair at Wellington and Portage County Fair at Randolph.

Aug. 24 — Columbiana County Fair opens at Lisbon.

Aug. 24 — Two popular recording stars, Leo Sayer and Melissa Manchester, take the stage at Blossom Music Center.

Aug. 24 — Ottawa County Fair opens at Oak Harbor and Attica Independent Fair opens at Attica in Seneca County.

Aug. 25 — Rittman opens its annual Apple Festival.

Aug. 26 — The nostalgic era of steam power is featured in the Threshermen's Convention and Historical Engine Show at Century Village in Burton.

AFS STUDENT ARRIVES — German Escher, from Brig, Switzerland, arrived in Circleville Tuesday to spend a year with the J.M. Yunker family, 536 N. Court St., and to attend Circleville High School. German (center) is pictured with his host father, Michael, and one of his host sisters, Ellen. German and Circleville's returning AFS student, Lisa Leahy, will be welcomed at a picnic at Hargus Lake (near the flagpole) Sunday at 5 p.m. Bring a covered dish.

Wheat Growers Economics At Depression Years Level

WASHINGTON (AP) — According to Agriculture Department calculations, the economic well-being of wheat growers generally has fallen to the levels of 1933, when the federal government began extensive programs of adjusting the farm economy.

In addition to protecting the life of the president, the Secret Service is responsible for enforcing laws regarding coins, obligations and securities of the United States and foreign governments.

The prices they are getting this summer are not the worst but are getting close to a percentage of the calculated parity price.

In mid-July, the combined average for all types of wheat produced was \$2 a bushel. That's 40 per cent of the parity price of \$5.05.

As a percentage of parity, the average wheat prices for one season hit bottom in 1931, with 36 per cent.

When grain stocks in other countries were depleted in 1973 and U.S. exports began to boom, the peak of 118 per cent was reached.

The parity price is not a direct measure of farm income, which chief USDA economist Howard Hjort says will fall to 1971 levels this year.

But it does reflect at a given time the price a farmer should get for a bushel of wheat to achieve the financial harmony the law says existed in the 1910-1914 period.

Many figures are cranked into the calculation, which the department is required to make, each month. Most are averages that a farmer with a mortgage and a typical family's needs may have some difficulty identifying with.

The prices the farmer pays for the articles and services that he must buy are included, along with the general level of all farm prices, interest rates, wage rates, taxes and government income supplements and price supports.

Few of those items go down as does the price of a commodity after big harvests.

Agriculture Secretary Bob Bergland says, "I see no hope for wheat-price improvement this year" in the cash

market. Upcoming increases in government payment levels will help growers' incomes but not raise the effective market price beyond \$2.25 a bushel, the USDA loan rate.

The Economic Research Service says that "seasonal price rises of 5 to 10 per cent have occurred in earlier years when prices were near the loan rate."

That's a dime or two a bushel next spring, not enough to exceed the loan rate. Moreover, dwindling storage space is forcing many farmers to sell into the glutted market rather than wait.

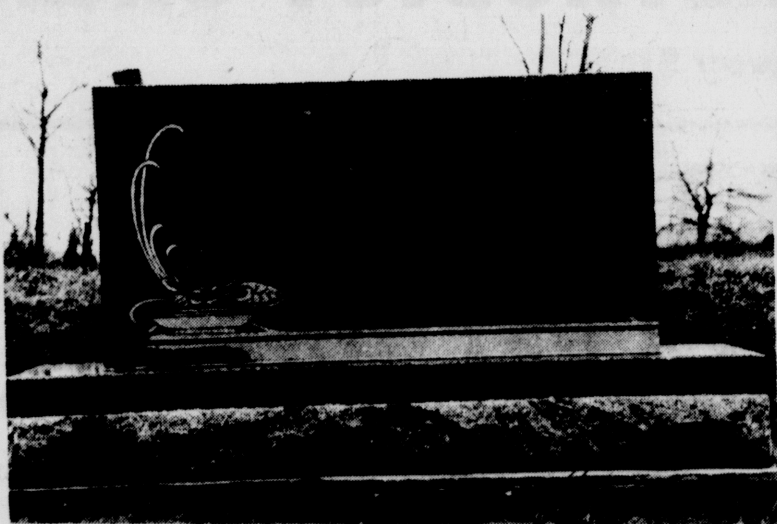

Some tentative hope was raised Thursday with new estimates of world grain trade, production and stocks for the current season. The Foreign Agricultural Service trimmed its forecast of the total wheat and coarse grains carryover stocks next June 30 from a potential record of 195.8 million metric tons to 186.2 million.

But that would still be the largest stockpile since 1970, more than 10 per cent above this summer's price-smothering carryover.

The estimate also is tentative, because it was based on lower projections for Russian spring-wheat and U.S. corn harvests that may be raised again because of recent better weather.

"It will take a kicker on the demand side — more specifically from exports — to push prices up more than seasonally," the Aug. 1 ERS analysis states. "Such a push could come from a shortfall in the world's wheat crop, the world's feedgrain crop or the world rice crop. However, at this time all three crops look good."

Youth Looks To Make Derby History

AKRON, Ohio (AP) — Phil Raber, one of 173 competitors in today's All-American Soap Box Derby, may make history in the 40th running of the gravity classic.

Last year, Raber of New Philadelphia in Tuscarawas County, won the junior division for those 10 through 12 year olds. This year he will compete in the senior division for those 12 to 15 years old.

He may become the first derby champ to win a title two years in a row. The Soap Box Derby board of directors broke up the races into two divisions two years ago. Before that a winner was barred from further competition.

The directors have another rule change for next year. The 1978 derby will permit kit cars in the senior division. Junior division drivers must have kit cars. The kits provide patterns, axles and hardware. The driver provides wood, paint and effort.

Next September, the derby will make available a senior division kit which will differ from the junior division kit in that the junior racers will be sitting upright in their cars and the senior racers will be reclined. Because of the prone position, the senior division cars are sleeker and faster.

Derby officials said the kits help lessen the need for extensive adult supervision which in years past has led to abuses. The officials predict that 70 per cent of next year's senior division racers will have used kits.

"They're still doing it themselves," a derby spokesman said of car construction. "They're still sanding it and painting it their way."

The race will be on the 950-foot Derby. Junior division winners receive plaques. The top three senior finishers receive scholarships of \$3,000, \$2,000 and \$1,000 respectively.

During the derby's heyday, when the Chevrolet Division of General Motors sponsored it, Chevrolet offered scholarships totaling \$30,000 and spent as much as \$500,000 to sponsor the event. After having troubles in attracting sponsors, Novar Electronics Corp. of the Akron suburb of Barberton, last year pledged annual backing of \$165,000.

His tag of Alexander saved the game for the Indians. Cleveland nursed a 2-1 lead into the ninth inning, but starting pitcher Al Fitzmorris gave up a lead-off single to Marty Perez.

Alexander ran for Perez and Cleveland Manager Jeff Torborg brought in Don Hood. Alexander stole second while Hood was walking Mitchell Page and went to third on a throwing error by Fosse. Jerry Tabb grounded to first baseman Andy Thornton who threw to Fosse to get Alexander on a close play at the plate.

"I was on the plate when he tagged me," Alexander claimed. Oakland Manager Bobby Winkles agreed and argued to no avail over the play.

Fosse said he tagged Alexander as they collided. "I hurt my shoulder when he ran into me as I turned to tag him," Fosse said.

Shiaway Takes Scioto Feature

COLUMBUS, Ohio (AP) — Shiaway, driven by Rick Lake, pulled ahead in the second half to win the featured ninth race by a nose Friday night at Scioto Downs.

The winner went the distance in 2:02 and paid \$9.80, \$4.60 and \$3.40. Peggy Ann Wick, second, paid \$3.60 and \$3.00, while the show horse, Sugar Wait, returned \$4.00.

In the nightly double, 4-1, Cretan won the first race and Scotch Santa the second to pay \$101.60.

The 10th race trifecta combination of 3-6-9 paid \$35,818.20 for one ticket holder.

Mets Continue Slump

By KEN RAPPOPORT
AP Sports Writer

The beat goes on for George Foster—and the beatings go on for the New York Mets.

Foster continued to succeed with the long ball and the Mets continued to fail Friday night as the major league's leading slugger blasted his 40th and 41st home runs to help the Cincinnati Reds to a 4-1, 4-3 doubleheader sweep.

The power display by Cincinnati's lean left-fielder gave him a special distinction, although he tended to play down the fact that he had become the first major leaguer to hit the 40-homer plateau since 1973.

The last time that figure was reached, four players did it—Willie Stargell had 44 with the Pittsburgh Pirates and Dave Johnson had 43, Darrell Evans 41 and Hank Aaron 40, all with the Atlanta Braves.

Foster's RBI total reached an astronomical figure of 116 after Friday night's performance. That averages out to nearly one a game.

Just for the record, though, Foster is within shooting distance of Hack Wilson's National League record of 56 home runs in one season and is 20 away from Roger Maris' major league mark of 61. The Reds have 40 games left. The defeats were the eighth and

ninth for the Mets in their last 11 games.

In other National League games, the St. Louis Cardinals bombed the San Diego Padres 12-4, the Chicago Cubs defeated the Los Angeles Dodgers 6-2, the Philadelphia Phillies outscored the Houston Astros 9-5, the Pittsburgh Pirates turned back the San Francisco Giants 6-1 and Atlanta trimmed Montreal 5-3 in the first game of a doubleheader before dropping a 7-2 decision in the nightcap.

Cardinals 12, Padres 4
Mike Tyson drove in six runs with a home run, double and single, pacing a 16-hit attack that carried St. Louis over San Diego.

The stocky Tyson, a .231 hitter at the start of the game, smacked a bases-loaded double, driving in three runs during a five-run rally in the first inning.

Tyson belted his seventh homer of the season following a single by Ken Reitz in the fourth and capped his offensive flurry with a run-scoring single during a five-run fifth.

Cubs 6, Dodgers 2
Bill Buckner smashed two homers and two singles and drove in five runs against his former teammates to lead Chicago past Los Angeles.

Ivan deJesus, also a former Dodger, had three hits and drove in the other Chicago run and Steve Ontiveros added three hits to the 15-hit attack the Cubs launched against Tommy John, 14-5, whose string of 22 scoreless innings came to an end before he could retire a batter.

The Cubs' hefty offense made it easy for Mike Krukow to rack up his eighth victory in 18 decisions.

Phillies 9, Astros 5
Pitcher Larry Christenson hit a three-run homer and benefited from three other homers, winning his eighth straight game as Philadelphia beat Houston. Christenson, 12-5, homered over the center field wall in the sixth inning with Bob Boone and Ted Sizemore on base. The homer, his second this year, came off Houston starter Joe Niekro, 8-5, who gave up eight runs and nine hits in six innings.

The Phillies got three runs in the first on Bake McBride's single, a double by Greg Luzinski and Richie Hebner's 15th homer. Boone hit his

Youth Looks To Make Derby History

AKRON, Ohio (AP) — Phil Raber, one of 173 competitors in today's All-American Soap Box Derby, may make history in the 40th running of the gravity classic.

Last year, Raber of New Philadelphia in Tuscarawas County, won the junior division for those 10 through 12 year olds. This year he will compete in the senior division for those 12 to 15 years old.

He may become the first derby champ to win a title two years in a row. The Soap Box Derby board of directors broke up the races into two divisions two years ago. Before that a winner was barred from further competition.

The directors have another rule change for next year. The 1978 derby will permit kit cars in the senior division. Junior division drivers must have kit cars. The kits provide patterns, axles and hardware. The driver provides wood, paint and effort.

Next September, the derby will make available a senior division kit which will differ from the junior division kit in that the junior racers will be sitting upright in their cars and the senior racers will be reclined. Because of the prone position, the senior division cars are sleeker and faster.

Derby officials said the kits help lessen the need for extensive adult supervision which in years past has led to abuses. The officials predict that 70 per cent of next year's senior division racers will have used kits.

"They're still doing it themselves," a derby spokesman said of car construction. "They're still sanding it and painting it their way."

The race will be on the 950-foot Derby. Junior division winners receive plaques. The top three senior finishers receive scholarships of \$3,000, \$2,000 and \$1,000 respectively.

During the derby's heyday, when the Chevrolet Division of General Motors sponsored it, Chevrolet offered scholarships totaling \$30,000 and spent as much as \$500,000 to sponsor the event. After having troubles in attracting sponsors, Novar Electronics Corp. of the Akron suburb of Barberton, last year pledged annual backing of \$165,000.

Ladies Host 49 Golfers On Guest Day

Forty-nine golfers were present Thursday at the Pickaway Country Club for Ladies Guest Day.

Winners were: low gross, Helen Kazelskis; low net, three way tie between Bert Rickard, Mary Carpenter and Dorothy Wardell; low putts, Phyllis Johnson.

Ruth Marshall had the longest drive on hole five and Jane Sutton was closest to the pin on number seven.

Co-chairman of the event were Gert Rickard and Marge Thornton.

Defensive tackle Wilson Famuina, a first round pick by the Atlanta Falcons in the 1977 NFL draft, is the son of a former Samoa chieftain.

Mets Continue Slump

By KEN RAPPOPORT

AP Sports Writer

The beat goes on for George Foster—and the beatings go on for the New York Mets.

Foster continued to succeed with the long ball and the Mets continued to fail Friday night as the major league's leading slugger blasted his 40th and 41st home runs to help the Cincinnati Reds to a 4-1, 4-3 doubleheader sweep.

The power display by Cincinnati's lean left-fielder gave him a special distinction, although he tended to play down the fact that he had become the first major leaguer to hit the 40-homer plateau since 1973.

The last time that figure was reached, four players did it—Willie Stargell had 44 with the Pittsburgh Pirates and Dave Johnson had 43, Darrell Evans 41 and Hank Aaron 40, all with the Atlanta Braves.

Foster's RBI total reached an astronomical figure of 116 after Friday night's performance. That averages out to nearly one a game.

Just for the record, though, Foster is within shooting distance of Hack Wilson's National League record of 56 home runs in one season and is 20 away from Roger Maris' major league mark of 61. The Reds have 40 games left. The defeats were the eighth and

ninth for the Mets in their last 11 games.

In other National League games, the St. Louis Cardinals bombed the San Diego Padres 12-4, the Chicago Cubs defeated the Los Angeles Dodgers 6-2, the Philadelphia Phillies outscored the Houston Astros 9-5, the Pittsburgh Pirates turned back the San Francisco Giants 6-1 and Atlanta trimmed Montreal 5-3 in the first game of a doubleheader before dropping a 7-2 decision in the nightcap.

Your Tiger

by Bud Blake

Horoscope

By FRANCIS DRAKE

What kind of day will tomorrow be? To find out what the stars say, read the forecast given for your birth sign.

FOR SUNDAY

ARIES (Mar. 21 to Apr. 20): Star-promised now: A lessening of heavy demand, easing of tensions, better cooperation from previously unsympathetic persons.

TAURUS (Apr. 21 to May 21): In familiar matters, push forward confidently, but wait where you do not know all the answers. In the latter case, avoid anxiety; just use common sense.

GEMINI (May 22 to June 21): Tread lightly where there is friction; hold the line against pessimism; recognize where improvements can be made — and make them.

CANCER (June 22 to July 23): Imagination should help you over the tedious tasks and persistence keep you going against any type of opposition. Do not arbitrarily oppose where you should concur, however.

LEO (July 24 to Aug. 23): Adjustments, revisions, quick changes of plan may be the order of the day. Take them in stride and distribute energies judiciously; don't argue where tact, finesse will win.

VIRGO (Aug. 24 to Sept. 23): Some contention possible in your area. Steer carefully away from it, and anything else unworthy of your fine mind and better instincts. Thus will your day be enjoyable.

LIBRA (Sept. 24 to Oct. 23): Your planets combine to hoist up the flag of high progress and stalwart action. You should be able to make a deep, lasting impression — where it counts!

SCORPIO (Oct. 24 to Nov. 22): Better to have tried and not succeeded than not to have tried at all. Yours is a do-it, and do-it-well Sign, and that should characterize your actions now.

SAGITTARIUS (Nov. 23 to Dec. 21): More than a few advantages for you who look, and look, and look again, and take small ones if they come first, not waiting always for big ones.

CAPRICORN (Dec. 22 to Jan. 20): If annoyed or frustrated, do something refreshing like working with your hands. Exercise will relieve tension.

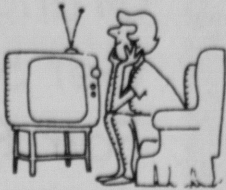

AQUARIUS (Jan. 21 to Feb. 19): More quiet than you have had lately will help you achieve what you planned for this day. At least YOU can remain calm even if others are overly excited.

PISCES (Feb. 20 to Mar. 20): Planetary aspects advise the usual preparations for familiar matters, and the cautions you know are best for YOU in unknown tries. Curb restlessness.

YOU BORN TODAY are endowed with tremendous mental and physical strength; in the latter connection, would make a great success as an athlete. You learn easily, are highly imaginative, courageous and original in handling all your undertakings. Your wit is outstanding, and you would make a brilliant entertainer. You have a great love of beauty and, if you do not take up one of the arts as a career, may do so avocationally.

Birthdate of: Jean Baptiste Greuze, Fr. painter; Princess Margaret, of England; Count Basie, modern jazz musician.

Charles Martel ("the hammer"), Frankish ruler of the eighth century, was the grandfather of Charlemagne.

GEMINI (May 22 to June 21): Tread lightly where there is friction; hold the line against pessimism; recognize where improvements can be made — and make them.

CANCER (June 22 to July 23): Imagination should help you over the tedious tasks and persistence keep you going against any type of opposition. Do not arbitrarily oppose where you should concur, however.

LEO (July 24 to Aug. 23): Adjustments, revisions, quick changes of plan may be the order of the day. Take them in stride and distribute energies judiciously; don't argue where tact, finesse will win.

VIRGO (Aug. 24 to Sept. 23): Some contention possible in your area. Steer carefully away from it, and anything else unworthy of your fine mind and better instincts. Thus will your day be enjoyable.

LIBRA (Sept. 24 to Oct. 23): Your planets combine to hoist up the flag of high progress and stalwart action. You should be able to make a deep, lasting impression — where it counts!

SCORPIO (Oct. 24 to Nov. 22): Better to have tried and not succeeded than not to have tried at all. Yours is a do-it, and do-it-well sign, and that should characterize your actions now.

SAGITTARIUS (Nov. 23 to Dec. 21): More than a few advantages for you who look, and look, and look again, and take small ones if they come first, not waiting always for big ones.

CAPRICORN (Dec. 22 to Jan. 20): If annoyed or frustrated, do something refreshing like working with your hands. Exercise will relieve tension.

AQUARIUS (Jan. 21 to Feb. 19): More quiet than you have had lately will help you achieve what you planned for this day. At least YOU can remain calm even if others are overly excited.

PISCES (Feb. 20 to Mar. 20): Planetary aspects advise the usual preparations for familiar matters, and the cautions you know are best for YOU in unknown tries. Curb restlessness.

YOU BORN TODAY are endowed with tremendous mental and physical strength; in the latter connection, would make a great success as an athlete. You learn easily, are highly imaginative, courageous and original in handling all your undertakings. Your wit is outstanding, and you would make a brilliant entertainer. You have a great love of beauty and, if you do not take up one of the arts as a career, may do so avocationally.

Birthdate of: Jean Baptiste Greuze, Fr. painter; Princess Margaret, of England; Count Basie, modern jazz musician.

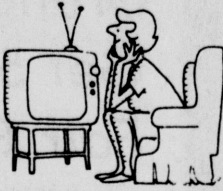

Syracuse, in southeastern Sicily, was founded by Greek settlers in the 18th century B.C.

Charles Martel ("the hammer"), Frankish ruler of the eighth century, was the grandfather of Charlemagne.

Peter Breck To Play At Reynoldsburg

Peter Breck who stars as Nick in "The Big Valley" will be opening at Country Dinner Playhouse on Sept. 6 in the riotous comedy, "Accommodations."

It is a comedy about a housewife who feels she may be missing out on something. She leaves her husband and her suburban home and moves into a two-room Greenwich Village apartment with two roommates. One roommate, Pat, is an aspiring actress never out of characters or costumes but through an agency mix up, the other roommate is a serious young graduate student — male. The ensuing complications make a hysterical evening.

The show will run through Oct. 9. The matinee schedule is Sept. 18, 24, 30 and Oct. 1, 5 and 8. Reservations may be made by calling 864-1760.

"Accommodations" ranks as one of the funniest ever staged. It is light comedy at its best.

Groucho ...

(Continued from Page 1)

His father, Sam, was an East Side tailor who lived to 101. His mother, Minnie, was the daughter of a wandering magician and sister of Al Shean of the famed Gallagher and Shean vaudeville team. She raised her five sons in poverty but managed to save enough to give the boys music lessons. She was immortalized on Broadway in the musical "Minnie's Boys."

Groucho was the third of five sons. His brothers were, in order of birth: Leonard (Chico), Arthur (Harpo), Milton (Gummo), and Herbert (Zeppo).

The brothers never considered themselves a comedy act until one day in Nacogdoches, Tex., when a runaway mule started a minor riot outside the theater and caused most of the audience to leave.

The infuriated brothers began joking and lured the audience back inside with their antics — their comedy act was born.

The brothers' first movie was a film version of "The Cocoanuts" in 1929. "Animal Crackers" was next, followed by "Monkey Business," "Horse Feathers," "Duck Soup," "A Night at the Opera" and "A Day at the Races."

The brothers retired in 1941 after "The Big Store," but returned in 1946 to make "A Night in Casablanca" and "Love Happy" in 1948.

Groucho and his first wife, now Mrs. Ruth Garrity, were divorced in 1943 after a 22-year marriage. Their two children, Arthur and Miriam, are writers. He and his second wife, Kay Gorcey, were divorced in 1950. They had a daughter, Melinda.

Groucho was divorced from his third wife, Eden, in 1968 and was ordered to pay a \$1 million settlement.

'Roots' Author Received Degree

PROVO, Utah (AP) — "It always tickles me to get another doctorate because I never finished college," said author Alex P. Haley after receiving an honorary degree at Brigham Young University's summer commencement exercises.

Haley, whose best-selling book "Roots" traced his ancestors back through slavery to African origins, received the degree on Friday. He said he is "up over my ears in sequels" to the book, including "Search," which will chronicle the work in writing "Roots."

Haley told reporters he was surprised at being asked by many why he would want a degree from a Mormon school, since the Mormon church denies blacks its priesthood.

He said he believes in "people finding each other rather than repulsing each other" and that he would like his acceptance of the degree to be a symbol of that.

OCTOBER FARM SCENE — Mrs. Parvelle Osborne stands beside her painting of a rural scene in the fall. Her work is being displayed at the BancOhio Second National Bank.

Art On Display At Bank

The paintings of ParVelle Osborne are currently being displayed in the north hallway of the Downtown Office of BancOhio Second National Bank.

Mrs. Osborne, a self-taught artist

who was born in North Carolina, has been painting since early childhood. During the depression she painted on window shades and poster board and up until 1969 she gave all her paintings away to family and friends who admired them.

In 1969 she was encouraged by artist Don Hazen, her husband's nephew who is associated with the Wally-Findley Galleries, to put her work on canvas and sell her paintings. He has also given her various pointers on her paintings at different times.

Mrs. Osborne paints mainly in oils with some watercolors. She likes to take pictures of her subject to paint from as she says when you sketch a scene you lose the radiant colors. Her paintings all reflect happy notes and memories and she enjoys painting landscapes and things with a past such as old barns.

Mrs. Osborne received first place for still life and landscapes at the 1977 Pickaway County Fair.

Mrs. Osborne's husband, Norman, refinishes antique frames for his wife and enjoys collecting antiques. The Osbornes reside at 163 W. Franklin St.

11 Cases Heard In Juvenile Court

Six traffic cases headed the Pickaway County Juvenile Court docket, with five other cases heard by the judge. They are:

15-year-old runaway boy, temporary Ohio Youth Commission (OYC) suspended, 2 years probation, counseling, 50 community work hours.

16-year-old boy, incorrigible, 17 days detention, temporary Pickaway County Childrens Service (PCCS) for placement in boy's group home, one year probation, 50 community work hours.

16-year-old girl, incorrigible, 10 days detention, suspended, two years probation, 50 community work hours.

Christopher Felsworth, 14, no operators license, \$50 fine, \$25 suspended, license suspended six months after drivers training or 18th birthday.

Victor A. Berry, 17, 6305 S. R. 56 East, speeding, \$10 fine, license suspended one month with exceptions.

Rhonda Harris, 17, Derby, failure to yield right of way, \$5 fine, license suspended two weeks, with exceptions.

David F. Anderson, 16, 17241 Little Walnut, speeding, \$10 fine, license suspended two weeks with exceptions.

Daniel R. Vincent, 17, Ashville, reckless operation, unsafe vehicle, \$10 fine, license suspended one year.

Rodney Allen Thompson, 16, 1213 Williams Drive, no operators license, \$15 fine.

16-year-old boy, grand theft, permanent OYC suspended, 30 days detention, 16 suspended, two years probation, counseling, not to associate with certain persons, shall not have or use drugs, 50 community work hours.

13-year-old boy, breaking and entering and grand theft, permanent OYC suspended, three years probation, not to associate with one certain person, seek counseling, 50 community work hours.

Auditions For Boys Choir Set

Auditions for the Circleville Boys' Choir will begin next week. This announcement has been made by the director, Paul Dunkle.

The choir will begin its tenth year in performing on September 8 at the first rehearsal which will be held at the church home of the choir, St. Philip's Episcopal Church.

During the past nine years nearly 130 boys have sung at least one year with the choir and eight boys have completed four years with the group.

Any boy in grade four through seven in any Pickaway County School is eligible to audition for the choir. A time for audition may be obtained by contacting the director at 474-2459 beginning Monday.

Patsy J. Henson to Frank L. Henson, one acre, Muhlentberg Twp.

Divorce Filed

James Robert Helms, Ashville vs Mary E. Helms, Philadelphia, Pa.; couple married Aug. 11, 1970 at Kingsland, Ga.; petition alleges gross neglect of duty and extreme cruelty.

Marriage Licenses Issued

Michael T. Henderson, 24, 131 York St. printer and Vicki L. Bacon, 21, 131 York St., secretary.

Judge

Marries Couple

Married Friday in Circleville Municipal Court were Robert W. Gillilan and Barbara Ann Long. The wedding was performed by Judge O. Charles Hosterman.

Grange Youth Get 5th For Fair Booth

The Pickaway County Youth Group received a fifth place ribbon at the Ohio State Fair for their booth display. The theme for the year was "Grange Youth—So Nice To Have Around".

The most original of all entries, the local group used a setting of a child's playroom with fixtures explaining activities of the local Grange organization.

Barbara McKenzie and Mark Wolfe were in charge of the exhibit and were assisted by Layne Richart, Joy and Dawn Bidwell, Ron Chesser, Randy Wolfe and Paul Dunkle.

PETS OF THE WEEK

These cute gray and white and brown tiger stripe kittens need homes. The kittens are six to eight weeks old and can be obtained free at the Pickaway County Animal Shelter, or by calling 474-3741 or 474-1395. The Pickaway County Humane Society reminds pet owners that owning a pet involves commitments — love and attention, veterinarian care, licenses for dogs and identification tags for cats and careful consideration to spaying and neutering.

Deaths

MR. JAMES H. FOUCH

Mr. James H. Fouch, 78, of 336 Lancaster Pike, died 3:30 p.m. Friday at the Cincinnati Veterans Hospital.

Born September 23, 1898 in Chillicothe, he was the son of David and Bessie Schaeffer Fouch.

He was service officer for the American Legion and Veterans of Foreign Wars, he was a member of the Good Shepherd United Methodist Church, a veteran of World War I, life member and past commander of the VFW Post 3331, and a member of the Hall-Adkins Post American Legion, and a member of Pickaway County Lodge of F & AM 23.

Survivors include his widow Hazel Huber; one daughter, Mrs. James T. (Vivian) McCain, Tarlton; one son, David William Fouch Sr., 170 Fairview Ave.; eight grandchildren; and 11 great-grandchildren. He was preceded in death by one son James.

Funeral service will be held 2 p.m., Monday at the Mader Funeral Home, with the Rev. Donald Yocom officiating. Burial will be in Hitler-Ludwig Cemetery.

Friends may call at the funeral home after 7 p.m., Saturday.

Memorial services will be conducted by the Masonic Temple, 8:30 p.m., Saturday; by the Veterans of Foreign Wars at 7:30 p.m., Sunday; and by the American Legion Post at 8 p.m., Sunday.

Peter Breck To Play At Reynoldsburg

Peter Breck who stars as Nick in "The Big Valley" will be opening at Country Dinner Playhouse on Sept. 6 in the riotous comedy, "Accommodations."

It is a comedy about a housewife who feels she may be missing out on something. She leaves her husband and her suburban home and moves into a two-room Greenwich Village apartment with two roommates. One roommate, Pat, is an aspiring actress never out of characters or costumes but through an agency mix up, the other roommate is a serious young graduate student — male. The ensuing complications make a hysterical evening.

The show will run through Oct. 9. The matinee schedule is Sept. 18, 24, 30 and Oct. 1, 5 and 8. Reservations may be made by calling 864-1760.

"Accommodations" ranks as one of the funniest ever staged. It is light comedy at its best.

Groucho ...

(Continued from Page 1)

His father, Sam, was an East Side tailor who lived to 101. His mother, Minnie, was the daughter of a wandering magician and sister of Al Shean of the famed Gallagher and Shean vaudeville team. She raised her five sons in poverty but managed to save enough to give the boys music lessons. She was immortalized on Broadway in the musical "Minnie's Boys."

Groucho was the third of five sons. His brothers were, in order of birth: Leonard (Chico), Arthur (Harpo), Milton (Gummo), and Herbert (Zeppo).

The brothers never considered themselves a comedy act until one day in Nacogdoches, Tex., when a runaway mule started a minor riot outside the theater and caused most of the audience to leave.

The infuriated brothers began joking and lured the audience back inside with their antics — their comedy act was born.

The brothers' first movie was a film version of "The Cocoanuts" in 1929. "Animal Crackers" was next, followed by "Monkey Business," "Horse Feathers," "Duck Soup," "A Night at the Opera" and "A Day at the Races."

The brothers retired in 1941 after "The Big Store," but returned in 1946 to make "A Night in Casablanca" and "Love Happy" in 1948.

Groucho and his first wife, now Mrs. Ruth Garrity, were divorced in 1943 after a 22-year marriage. Their two children, Arthur and Miriam, are writers. He and his second wife, Kay Gorcey, were divorced in 1950. They had a daughter, Melinda.

Groucho was divorced from his third wife, Eden, in 1968 and was ordered to pay a \$1 million settlement.

'Roots' Author Received Degree

PROVO, Utah (AP) — "It always tickles me to get another doctorate because I never finished college," said author Alex P. Haley after receiving an honorary degree at Brigham Young University's summer commencement exercises.

Haley, whose best-selling book "Roots" traced his ancestors back through slavery to African origins, received the degree on Friday. He said he is "up over my ears in sequels" to the book, including "Search," which will chronicle the work in writing "Roots."

Haley told reporters he was surprised at being asked by many why he would want a degree from a Mormon school, since the Mormon church denies blacks its priesthood.

He said he believes in "people finding each other rather than repulsing each other" and that he would like his acceptance of the degree to be a symbol of that.

Mainly About People

Marty Lutz, son of Mr. and Mrs. Jack Lutz, 140 E. Union St., has been discharged from Riverside Hospital, Columbus.

MD Carnival Held

Ronda Duncan, daughter of Mr. and Mrs. Douglas Duncan, 165 Jefferson Ave., Ashville, held a muscular dystrophy carnival Thursday.

She was assisted by Sally Noggle, Mike Dummitt and Tina Pritchard. Winners of the drawing held were Harold Timmons, stuffed animals; Mary Bumgarner, hair dryer; Sally Noggle, lemon twist; Joel Lemaster, ball.

The carnival earned a total of \$33 for the MD campaign.

OCTOBER FARM SCENE — Mrs. Parville Osborne stands beside her painting of a rural scene in the fall. Her work is being displayed at the BancOhio Second National Bank.

Art On Display At Bank

The paintings of Parville Osborne are currently being displayed in the north hallway of the Downtown Office of BancOhio Second National Bank. Mrs. Osborne, a self-taught artist

who was born in North Carolina, has been painting since early childhood. During the depression she painted on window shades and poster board and up until 1969 she gave all her paintings away to family and friends who admired them.

In 1969 she was encouraged by artist Don Hazen, her husband's nephew who is associated with the Wally-Findley Galleries, to put her work on canvas and sell her paintings. He has also given her various pointers on her paintings at different times.

Mrs. Osborne paints mainly in oils with some watercolors. She likes to take pictures of her subject to paint from as she says when you sketch a scene you lose the radiant colors. Her paintings all reflect happy notes and memories and she enjoys painting landscapes and things with a past such as old barns.

Mrs. Osborne received first place for still life and landscapes at the 1977 Pickaway County Fair.

Mrs. Osborne's husband, Norman, refinishes antique frames for his wife and enjoys collecting antiques. The Osbornes reside at 163 W. Franklin St.

Auditions For Boys Choir Set

Auditions for the Circleville Boys' Choir will begin next week. This announcement has been made by the director, Paul Dunkle.

The choir will begin its tenth year in performing on September 8 at the first rehearsal which will be held at the church home of the choir, St. Philip's Episcopal Church.

During the past nine years nearly 130 boys have sung at least one year with the choir and eight boys have completed four years with the group.

Any boy in grade four through seven in any Pickaway County School is eligible to audition for the choir. A time for audition may be obtained by contacting the director at 474-2459 beginning Monday.

13-year-old boy, breaking and entering and grand theft, permanent OYC suspended, three years probation, not to associate with one certain person, seek counseling, 50 community work hours.

Grange Youth Get 5th For Fair Booth

The Pickaway County Youth Group received a fifth place ribbon at the Ohio State Fair for their booth display. The theme for the year was "Grange Youth—So Nice To Have Around".

The most original of all entries, the local group used a setting of a child's playroom with fixtures explaining activities of the local Grange organization.

Barbara McKenzie and Mark Wolfe were in charge of the exhibit and were assisted by Layne Richart, Joy and Dawn Bidwell, Ron Chesser, Randy Wolfe and Paul Dunkle.

PETS OF THE WEEK

These cute gray and white and brown tiger stripe kittens need homes. The kittens are six to eight weeks old and can be obtained free at the Pickaway County Animal Shelter, or by calling 474-3741 or 474-1395. The Pickaway County Humane Society reminds pet owners that owning a pet involves commitments — love and attention, veterinarian care, licenses for dogs and identification tags for cats and careful consideration to spaying and neutering.

Deaths

MR. JAMES H. FOUCH

Mr. James H. Fouch, 78, of 336 Lancaster Pike, died 3:30 p.m. Friday at the Cincinnati Veterans Hospital.

Born September 23, 1898 in Chillicothe, he was the son of David and Bessie Schaeffer Fouch.

He was service officer for the American Legion and Veterans of Foreign Wars, he was a member of the Good Shepherd United Methodist Church, a veteran of World War I, life member and past commander of the VFW Post 3331, and a member of the Hall-Adkins Post American Legion, and a member of Pickaway County Lodge of F & AM 23.

Survivors include his widow Hazel Huber; one daughter, Mrs. James T. (Vivian) McCain, Tarlton; one son, David William Fouch Sr., 170 Fairview Ave.; eight grandchildren; and 11 great-grandchildren. He was preceded in death by one son James.

Funeral service will be held 2 p.m., Monday at the Mader Funeral Home, with the Rev. Donald Yocom officiating. Burial will be in Hitler-Ludwig Cemetery.

Friends may call at the funeral home after 7 p.m., Saturday.

Memorial services will be conducted by the Masonic Temple, 8:30 p.m., Saturday; by the Veterans of Foreign Wars at 7:30 p.m., Sunday; and by the American Legion Post at 8 p.m., Sunday.
